Sectors to nurture and attract. - Understanding locational advantages of Huntingdonshire and investment decisions of business leaders to stay/relocate here. - Scope and mechanisms for HDC interventions in infrastructure/redevelopment programmes 	

Ideas

Health – What are the issues facing the young and elderly populations of Huntingdonshire. How can HDC, either with partners or on its own initiative, assist with the health and well-being of residents in the District.

Evidence

Local Authority Health Profile 2018 published by Public Health England. We have three key indicators where we perform significantly worse than the national average:

- Killed and seriously injured on roads
- Alcohol-specific hospital stays (under 18s)
- Excess weight in adults (aged 18+)

Not significantly worse, but underperforming national average

- Hip fractures in older people (aged 65+)

We have a number of projects already underway or receiving support which are directly contributing to these outcomes (Ramsey Think Healthy / Live Healthy project). Support for activity through our leisure centres and for community initiatives such as Park Run. With a new run supported to start in St Neots this year. One Leisure Active Lifestyles Team creating opportunities for social engagement, particularly ageing population, through its class programmes, particularly 'Right Start'

Homelessness – Investigating the links between homelessness and housing supply.

Finding triggers for homelessness. Discovering options and opportunities to reduce homelessness in Huntingdonshire.

A large amount of work is happening in this space already, as a key corporate priority. Our own net spend on Homelessness is has more than doubled since 2015/16. This is in line with national figures. Housing affordability is an issue locally. With private rentals being very limited within the rates that national benefits pay. Huntingdonshire's average house price increased by **36%** in four years from April 2014 and the average household would now need to borrow **7.1** times its income to purchase the average house based on median values.

Environment – What are the environmental (and lifestyle) quality issues facing Huntingdonshire,

Evidence

2036 Local Plan and associated studies, particularly Infrastructure Delivery Plan

Combined Authority strategies and CPIER report

Affordable Housing – Increasing quality of housing developments and increasing supply of Affordable/Social housing – specifically in the villages.

Wider Economic Environment – How to best position Huntingdonshire as an attractive place to do business
