

**Financial Performance Monitoring Suite  
July 2019 – Quarter 1**

**Executive summary**

This report sets out the financial forecast for July, based on information at the end of June, for revenue and capital. The headlines are:

**Revenue** - the forecast outturn is an estimated underspend of £0.438m when compared to the approved budget, which is £0.365m higher than the previous forecast. At this stage in the year most service variations are small, however, Community, Development and Resources are forecasting larger variances, mainly as a result of delays in staff recruitment and additional income being generated.

**Capital Programme** – the forecast outturn is an estimated net overspend of £0.5m.

**MTFS** – The MTFS was previously updated as part of the 2019/20 Budget setting process. At the end of the current MTFS period, 2023/24, the value of savings that still need to be identified stands at £1.2m. The budget setting process for the financial year 2020/21 and onwards will start later this year and seek to identify savings that can be implemented over the new MTFS period to achieve this remaining target.

## Service Commentary

## Annex A

The following table provides the variances by service and where variances are greater than +/- £10,000 comments have been provided by the budget managers/Head of Service. Where there are adverse variances the budget managers have provided details of the actions they are undertaking to address the overspend.

## CAPITAL PROGRAMME

The approved gross Capital Programme 2019/20 is £7.693m. Schemes totalling £2.134m from 2018/19 have been rephased to 2019/20, to give the total gross capital programme for 2019/20 of £9.827m.

The net expenditure (income) to date is £(0.467m) (25% of the year) and the Capital Programme is forecast to have a net overspend of £0.455m, this includes underspends, overspends and growth.

Variation Commentary Summary	£000s
<b>Overspend</b>	
<p><b>Alms Close Development</b></p> <p>This project was tendered via the Procurement Portal, the tenders that have been received are in the region of £1.6m, with an additional £150,000 for consultants fees, this amounts to a potential overspend on the budget of £728,000. There are council contingencies Circa £80,000 which may be utilised but could amount to a saving on this sum. If the contingencies were not required then the committed additional spend would be c£648,000.</p> <p>The new design has increased the useable floor space, and has built in additional floor space in the event tenants seek to construct mezzanine flooring. Additional mezzanine floor space would increase the overall floor space of each unit by 50% to 75% of the ground floor areas. The council could obtain additional income through the lease in the event the tenant added mezzanine flooring.</p> <p>The tenderer that has been advised by professional consultants, whilst not the lowest it provides the council with minimal risk with relation to disputes regarding costs. The lowest tender was reconciled having to include several major works items and to accept this tender would put the council at risk.</p> <p>The last steps prior to acceptance of the tender will be a costing exercise, whereby the council will have to undertake a costing exercise to calculate investment return over a given period. As things stand the project is ready to proceed subject to financial approval.</p>	728

<b>Total Net Expenditure Overspend/(Underspend)</b>		<b>455</b>

There is a risk that this level of forecast will not happen as there are schemes that are forecasted to overspend or underspend. This process is managed by the Finance and Procurement Governance Board, where final business cases will be examined.

The net spend on the Council’s Capital Programme is financed via borrowing which has a revenue implication through the Minimum Revenue Provision (MRP).

The table below shows the capital programme by scheme with proposed rephasing, expenditure to date and forecast outturn. The financing of the capital programme showing the funding from grants and contributions, capital receipts, use of earmarked and capital reserves and internal borrowing.

## Financial Dashboard

### Council Tax Support Scheme

Currently, the actual take-up of Council Tax Support is running approximately £0.2m above the budgeted £6.7m. Any 2019/20 increase in Council Tax Support will impact in 2020/21.

The impact of this increase on HDC will be proportionate to all Council Tax precepts (13.5% for HDC including parishes).

### Collection of NDR

The NDR graph above shows the total amount of NDR bills raised in 2019/20 and the actual receipts received up to the end of June, with a forecast for receipts through to the end of the year, based on historical collection rates. The Council tax graph below provides the same analysis.

### Collection of Council Tax

### Miscellaneous Debt

The total outstanding debt as at 31<sup>st</sup> July 2019 is £1.619m (March 2019, £1.517m). £471k relates to Commercial Rents, £454k relates to homeless accommodation/prevention, £67k relates to schools and other customers use of One Leisure facilities and £206k relates to Operations.

### New Homes Bonus

As part of the Local Government Financial Settlement 2019/20 issued in December 2018 the Government announced changes to local government financing that included the phasing out of the New Homes Bonus Scheme. After 2018/19 no new NHB will be paid and so the amount we receive will tail off over the next 4 years. The impact of this has been included in the 2019/20 MTFS.
