Comments on Variances

2020/21

There was overspend across Countryside due to COVID. The collapse in income was due to the closure of the Hinchingbrooke Country Park during lockdown periods. The café and the centre did not reach pre-COVID levels after the lockdown was lifted which was expected.

2021/22

Forecasted underspend on Hinchingbrooke Park Management from increased sales of souvenirs.

There is an expected underspend for the countryside centre which is split between savings from a vacant post and reduction in building maintenance and site works.

The café's income is expected to reach pre-COVID levels which is why there is a large underspend.
