The Council's 2022/23 Treasury Management Strategy was approved by the Council on the 23rd February 2022 and this report sets out the Treasury Performance for period between 1st April 2022 and 30th September 2022.

The main purpose of Treasury Management is to

- Borrow when necessary to fund capital expenditure, including borrowing in anticipation of need when rates are low.
- Invest surplus funds in a manner that balances low risk of default by the borrower with a fair rate of interest.

The key market Treasury Management issues through the first half of 2022/23 influencing the Council's decision-making were.

- The Bank of England (BoE) held Bank Rate increased over the period to 2.25% from 0.75% in March.
- Rising Gilt rates following the mini budget on 23rd September, and continued volatility.

- Gilt rates (5 year) rose from 1.41% to 4.4%, feeding into the rates paid for lending to the Debt Management Office.
- The Sterling Overnight Rate averaged 1.22%

The Council's responses to the key issues were.

- When the Council has surplus funds, these will primarily be invested on a short term basis, primarily in the DMO, money market funds, and the council's transaction bank Natwest.
- Where possible to take a higher return without sacrificing liquidity eg use of timed deposits at the DMO.
- Where economic conditions are forecast to deteriorate it is vital to monitor financial institutions credit rating, and credit default swap rates (the cost to insure lending). This information is provided by the Council's treasury adviser - Arlingclose.
