RECEIVED

To whom it may concern :-

(Notice of Application Licence)

I am writing in regards to proposed application of Nob Bistro & Cocktail bar of 6 New Street Cambridgeshire PE19 1AE.

We share an alley way with them at the back where our fire exits are. They initially opened up as a bistro and are now running it as a night club over the weekends. They are using our bins to block off the alley and using it as an overflow for smoking for their venue.

In addition to this it is blocking fire escapes and people are using the alley to urinate, be sick, ~~and use the alley as a storage area~~. There is CCTV of people filling the alley. I also understand in their short time of opening a fight broke out and people were seriously hurt.

By extending the hours for them to sell alcohol it would mean more trouble for local residents. Some of the bullet points below highlight the reasons for objecting.

- Fire Hazard - blocking the alley & exits & misusing our bins to block the alley up.

- No where else in town operates this late and when waterspoons closes after more people will filter here. The venue is small so crowd control should be in place.

- Rubbish is left in the alleyway blocking other businesses & not cleared.
- I have had vandalism happen in the past with people who have been intoxicated. I feel this would fuel this & lead to further issues
- Noise issues with local residents.
- Nobody has spoken to local business about the change and we are all frustrated

Thank you
