

Gender Pay Gap Report – March 2024

Introduction

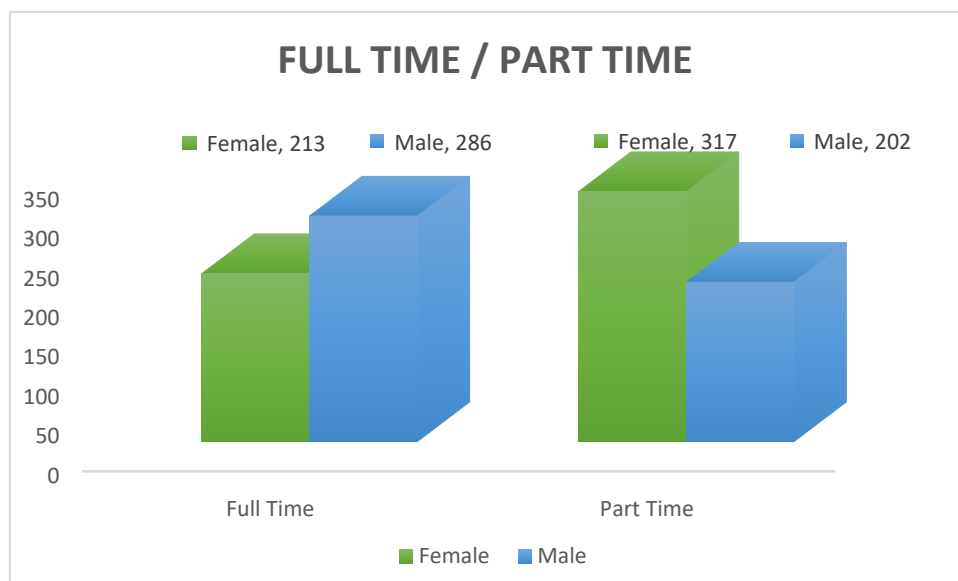

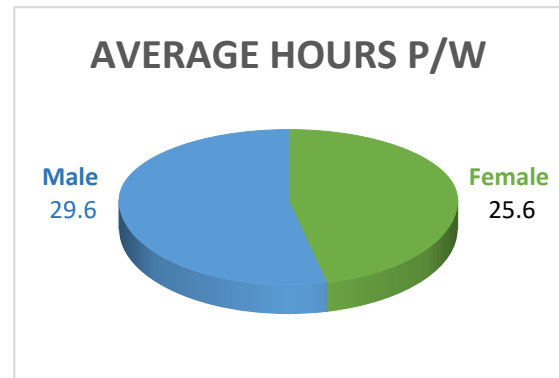

The Gender Pay Gap legislation requires all employers with 250 or more employees to publish their gender pay gap information annually. For Local Government, this is based on employees employed as of 31st March 2024.

The gender pay gap shows the difference in average earnings between men and women and is based on average hourly earnings. The calculations are based on differences between the average hourly earnings of men and women, as a proportion of average hourly earnings for men.

A positive pay gap figure shows that women are earning less per hour than men, on average, whereas a negative figure shows women are earning more per hour on average than men.

Workforce Information

Total employee headcount on our snapshot date of 31st March 2024 was 1,018.

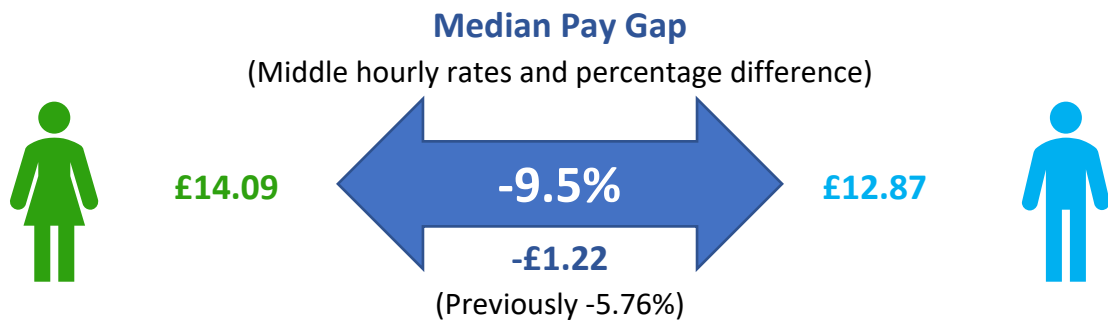

Gender Pay Gap Results – March 2024
