## 1.0 Introduction

The Council invests its money for three broad purposes:

- because it has surplus cash as a result of its day-to-day activities, for example when income is received in advance of expenditure (known as **treasury management investments**),
- to support local public services by lending to or buying shares in other organisations or lending to residents (**service investments**), and
- to provide a service and earn income (**investments properties**), governed by the Commercial Investment Strategy 2025.

This investment strategy meets the requirements of statutory guidance issued by the government in December 2021, and focuses on the second and third of these categories.

## 2.0 Treasury Management Investments

The Council typically receives its income in cash (e.g., from taxes, grants and fees) before it pays for its expenditure in cash (e.g., through payroll, invoices and benefits). It also holds reserves for future expenditure and collects local taxes on behalf of other local authorities and central government. These activities, plus the timing of borrowing decisions, lead to a cash surplus which is invested in accordance with guidance from the Chartered Institute of Public Finance and Accountancy. The balance of treasury management investments is expected to fluctuate between £42.5m and £60.0m during the 2026/27 financial year.

### 2.1 Contribution

The contribution that these investments make to the objectives of the Council is to support effective treasury management activities.

### 2.2 Further Details

Full details of the Council's policies and its plan for 2026/27 for treasury management investments are covered in a separate document, the Treasury Management Strategy.

### 3.0 Service Investments: Loans

#### 3.1 Contribution

The Council has previously made loans to local organisations to support local public services and stimulate local economic growth.

Including the Urban and Civic Loan – A loan which was provided to Urban and Civic to fast forward the construction of Incubator II on the Enterprise Zone at Alconbury.

#### 3.2 Security

The main risk when making service loans is that the borrower will be unable to repay the principal loaned and/or the interest due. In order to limit this risk, and ensure that total exposure to service loans remains proportionate to the size of the Council, upper limits on the outstanding loans to each category of borrower have been set as follows:

<b>Borrower</b>	<b>31/03/2025 Actual £000s</b>	<b>31/12/2025 Actual £000s</b>	<b>2026/27 Limit £000s</b>
Urban and Civic Ltd	1,984	1,984	<b>Limit in total not across categories</b>
Somersham Parish Council	2	0	
Improvement Loans (DFGs) <sup>(1)</sup>	460	460	
Employee Loans	0	0	
<b>Total</b>	<b>2,446</b>	<b>2,444</b>	<b>15,000</b>

<sup>(1)</sup> These are small loans to householders. Only accounted for annually.

Accounting standards require the Council to set aside loss allowance for loans, reflecting the likelihood of non-payment. However, the Council makes every reasonable effort to collect the full sum loaned and has appropriate credit control arrangements in place to recover overdue repayments.

#### 3.3 Risk assessment

The Council assesses the risk of loss before entering into and whilst holding service loans by:

1. A robust acquisition due diligence process and subsequent approvals
2. Liability management (reviews of debt levels and terms)
3. Counterparty risk (financial exposures, potential defaults, changing business plans, credit rating)
4. Market factors (with periodic advice from appropriate professionals)
5. State Aid considerations
6. Use of professional treasury and financial advisors

The Dun and Bradstreet Credit Reports are used to provide credit reports on the borrowers. The reports provide the following:

- Risk Assessment
- Trade Payments
- Legal Events
- Corporate Linkage
- Company Profile
- Financials
- Registry Info

The credit reports have a tracking feature which notifies the Council regarding any updates on a borrower's credit. Other sources such as Companies House and news websites provide the Council with extra information to assess and monitor risk.

## **4.0 Service Investments: Shares**

### **4.1 Contribution**

The Council will invest in the shares of its subsidiaries, to support local public services and stimulate local economic growth. The Council will be the sole shareholder of its subsidiary HDC Ventures Limited. The purpose of HDC Ventures is to enable the Council to participate in commercial trading activities.

### **4.2 Security**

One of the risks of investing in shares is that they fall in value meaning that the initial outlay may not be recovered. In order to limit this risk, upper limits on the sum invested in each category of shares have been set as follows.

<b>Shares Held</b>	<b>31/12/2025 Invested £000s</b>	<b>31/12/2025 Gain/Loss £000s</b>	<b>31/12/2025 Value £000s</b>	<b>2025/26 Limit £000s</b>
Subsidiary	0	0	0	1,000
<b>Total</b>	<b>0</b>	<b>0</b>	<b>0</b>	<b>1,000</b>

### **4.3 Risk assessment**

The risk will be assessed as the company matures and contracts are developed.

### **4.4 Liquidity**

Each investment will be considered by Cabinet and the maximum period set will be on a case-by-case basis.

### **4.5 Non-specified Investments**

The Council has limited the amount that can be invested in non-specified investments, this limit is £10m. The investments are categorised as non-specified because the term

of the investment is or likely to be longer than 1 year. There is more detail in the Treasury Management Strategy (TMP1).

## **5.0 Investment Properties and Commercial Investment Strategy 2025**

The investment property portfolio is governed by the Commercial Investment Strategy that was revised and approved in 2025. This strategy outlines the framework of policies, principles and governance that the council will follow.

### **5.1 Commercial Investment Strategy Policies**

The council's policy for investment is to create income from sources outside of the council's operations, in order to bolster reserves and generate additional revenue streams that can be used to support front line services.

The council does not enter into borrowing arrangements purely for yield generation. All commercial investments are assessed against the principles of affordability, sustainability, and proportionality, and are undertaken primarily to support service delivery, economic regeneration, or other strategic objectives, rather than for speculative financial return.

The council maintains a robust governance framework, with non-treasury investments subject to the same scrutiny and risk management arrangements as those applied to treasury investments.

### **5.2 Commercial Investment Strategy Guiding Principles and Outcomes**

Investments will generally be focused on the built environment and will largely comprise of property, joint venture opportunities and regeneration opportunities. Any other opportunities should also comply with the Commercial Investment Strategy.

Investments must demonstrate;

- Commercial viability
- Local impact
- Risk Management
- Sustainability
- Divestment
- Timely decision making

The investment outcomes to be promoted are;

- Revenue Generation
- Economic Growth
- Asset Optimisation
- Sustainability and Social Value
- Risk Management

To be achieved through taking a commercial approach and also working in partnership with other bodies.

### 5.3 Governance and the Investment Framework

The Commercial Investment Strategy will be governed by a board, currently the Treasury and Capital Management Group (TCMG).

When considering investments, the following factors should be taken account of;

- Diversification of the investment portfolio
- Due diligence
- Ongoing monitoring
- Exit strategies

The framework must ensure that an investment consideration satisfies the Revenue Generation outcome as well as one other.

The table below set out the relationships between investment activities, investment principles and the investment oversight.

Investment Activity	Investment Principles	Investment Oversight <sup>(1)</sup>
Revenue Generation (must be met)	Commercial Viability	Balanced Scorecard Assessment
Economic Growth	Local Impact	Quarterly Performance Reporting
Asset Optimisation	Risk Management	TCMG Analysis, Review, Recommendation
Sustainability and Social Value	Sustainable Revenue	Cabinet Recommendation/Approval
Risk Level	Divestment	Council Approval

<sup>(1)</sup> This process will follow the council's Constitution, based on the value/type/risk of the investment

## 5.4 Contribution of the Portfolio

The Council faces considerable financial challenges over the medium term. To achieve financial sustainability, the original and in 2025 the revised Commercial Investment Strategy was approved. The Council invests in local and regional UK commercial property with the intention of income generation which will help fund public services. For a full listing of CIS properties see Annex A.

<b>Commercial Investment Property (Summary)</b>	<b>31/03/2024 Value £000s</b>	<b>Gain/(Loss) £000s</b>	<b>31/03/2025 Value £000s</b>
Legacy Properties;			
Huntingdon	21,592	367	21,959
St Ives	1,444	79	1,523
St Neots	7,278	49	7,327
	<b>30,314</b>	<b>495</b>	<b>30,809</b>
<b>CIS Properties</b>			
2 Stonehill	2,276	0	2,276
80 Wilbury Way	1,908	0	1,908
Shawlands Retail Park	5,783	(232)	5,551
1400 & 1500 Parkway	4,037	0	4,037
Rowley Arts Centre, St Neots	6,543	(644)	5,899
Little End Road, St Neots	3,288	1,977	5,265
Tri-link, Wakefield	14,686	1,264	15,950
Alms Close	1,449	57	1,506
	<b>39,970</b>	<b>2,422</b>	<b>42,392</b>
<b>Total</b>	<b>70,284</b>	<b>2,917</b>	<b>73,201</b>

The table below illustrates the contribution that the CIS makes to the Council's revenue budget.

<b>Actual 2023/24</b>	<b>Budget 2024/25</b>	<b>Forecast 2024/25</b>	<b>Budget 2025/26</b>	<b>Budget 2027/28</b>	<b>Budget 2028/29</b>	<b>Budget 2029/30</b>
<b>£m</b>	<b>£m</b>	<b>£m</b>	<b>£m</b>	<b>£m</b>	<b>£m</b>	<b>£m</b>
(3.100)	(3.338)	(2.564)	(2.955)	(3.417)	(3.500)	(3.582)

## 5.5 Operational Management

At an operational level managers will continue to;

- Maintain asset management plans
- Review debt levels
- Make tenant assessments
- Monitor occupancy levels and operating costs
- Monitor market factors
- Use professional advice where necessary

## 5.6 Liquidity Considerations

Compared with other investment types, property is relatively difficult to sell and convert to cash at very short notice. To ensure that the invested funds can be accessed or liquidated, the Council will review investments regularly to ensure rental income is maximised (through rent reviews and lease renewals) and undertake asset management (re-letting, repairs, improvements etc) to ensure any proceeds from sale are maximised if assets are liquidated. Regular review of the property investment market will identify potential changes in market conditions and identify optimum opportunities to sell assets.

## 6.0 Loan Commitments and Financial Guarantees

Although not strictly counted as investments, since no money has exchanged hands yet, loan commitments and financial guarantees carry similar risks to the Council. At this moment in time the Council does not carry any financial guarantees.

## 7.0 Proportionality

The Council is dependent on surplus generating investment activity to achieve a balanced revenue budget. The table below shows the extent to which the expenditure planned to meet the service delivery objectives and/or place making role of the Council is dependent on achieving the expected net surplus from investments over the lifecycle of the Medium-Term Financial Strategy. Should it fail to achieve the expected net surplus, the Council's contingency plans for continuing to provide these services, are to use reserves where necessary to offset any negative variances in the final outturn. Unallocated general fund balances and non-earmarked reserves can be used in case of a downturn in investment income to meet a detrimental effect.

<b>Proportionality of Investments</b>	<b>2024/25 Actual £000s</b>	<b>2025/26 Forecast £000s</b>	<b>2026/27 Budget £000s</b>	<b>2027/28 Budget £000s</b>	<b>2028/29 Budget £000s</b>
Gross service expenditure	88,527	91,498	86,598	88,106	90,480
Net Investment income	3,409	2,810	3,755	3,796	3,780
Proportion	<b>3.9%</b>	<b>3.1%</b>	<b>4.3%</b>	<b>4.3%</b>	<b>4.2%</b>

## 8.0 Borrowing in Advance of Need

Government guidance is that Councils must not borrow more than or in advance of their needs purely in order to surplus from the investment of the extra sums borrowed.

The Council has previously borrowed to invest in commercial property however the Council now expects not to borrow to invest in property in the future purely for yield.

## **9.0 Capacity, Skills and Culture**

### **9.1 Elected members and statutory officers**

Through formal Treasury and Capital Management Group meetings, members are provided with updates on:

- The property investment market.
- Performance of current property assets – income growth, capital values, voids and debt.
- Review of investment opportunities investigated, if any.

More informal and regular updates are provided on the progress of individual key transactions, opportunities and market changes.

Key staff are appropriately professionally qualified, maintain annual CPD and maintain professional networks with other investors and advisors.

### **9.2 Commercial Deals**

The Commercial Estates and Finance teams work closely to ensure the core principles of the prudential framework are maintained.

### **9.3 Corporate governance**

The Commercial Investment Strategy has published delegated Council levels and process for investment decisions, these are adhered to.

The Treasury and Capital Management Group will be consulted early on any investment opportunities and provided with regular progress reports in addition to formal approval reports and a further reports on due diligence findings prior to formal commitments. A report to Cabinet in relation to the purchase is made before the deal is finally completed.

## **10.0 Investment Indicators**

The Council has set the following quantitative indicators to allow elected members and the public to assess the Council's total risk exposure as a result of its investment decisions.

### **10.1 Total risk exposure**

The first indicator shows the Council's total exposure to potential investment losses. This includes amounts the Council is contractually committed to lend but have yet to be drawn down and guarantees the Council has issued over third-party loans.

<b>Investment Exposure</b>	<b>31/03/2025 Actual £000s</b>	<b>31/03/2026 Forecast £000s</b>	<b>31/03/2027 Forecast £000s</b>
Treasury management investments	69,113	60,000	42,500
Service investments: Loans	1,986	1,984	1,984
Service investments: Shares	0	0	100
Property Fund	4,000	4,000	4,000
Commercial investments: Property	73,201	73,201	73,201
<b>Total Investments</b>	<b>148,300</b>	<b>139,185</b>	<b>121,785</b>
Commitments to lend	0	0	0
Guarantees issued on loans	0	0	0
<b>Total Exposure</b>	<b>148,300</b>	<b>134,271</b>	<b>124,369</b>

## 10.2 How investments are funded

Government guidance is that these indicators should include how investments are funded. Since the Council does not normally associate particular assets with particular liabilities, this guidance is difficult to comply with. However, the following investments could be described as being funded by borrowing. The remainder of the Council's investments are funded by usable reserves and income received in advance of expenditure.

<b>Investments Funded by Borrowing</b>	<b>31/03/2025 Actual £000s</b>	<b>31/03/2026 Forecast £000s</b>	<b>31/03/2027 Forecast £000s</b>
Treasury management investments	0	0	0
Service investments: Loans	0	0	0
Service investments: Shares	0	0	0
Commercial investments: Property	24,255	24,255	24,255
<b>Total Funded by Borrowing</b>	<b>24,255</b>	<b>24,255</b>	<b>24,255</b>

## 10.3 Rate of return received

This indicator compares the investment income received to the purchase price of the investment. Note that due to the complex local government accounting framework, not all recorded gains and losses affect the revenue account in the year they are incurred.

Investment Yields	2024/25 Actual %	2025/26 Forecast %	2026/27 Forecast %
Treasury management investments	4.5	3.6	3.3
Property Fund	4.5	4.5	4.5
Service investments: Loans	7.8	7.0	5.0
Commercial investments: Property	6.5	5.9	6.9
<b>All Investments</b> (simple average)	<b>5.8</b>	<b>5.3</b>	<b>4.9</b>

#### 10.4 Commercial Investment Indicators

Commercial Investment Indicators	2024/25 Actual	2025/26 Forecast	2026/27 Forecast
Interest Cover Ratio	1.8	1.9	2.0
Loan to Value Ratio	107.5%	107.5%	107.5%
Gross Rent Multiplier	12.7	13.8	15.3

Interest cover ratio is used to measure how readily a business can pay the interest due on loans. The higher the number, the increased likelihood that the interest will be paid. Loan to value is the value of the loan to the value of the property. If the percentage is over 100% that means the value of loan is more than the value of the property. Gross rent multiplier is the value of a property compared to its annual rental income the lower the number the more attractive the investment is.
