Premises description	This is an application to host medium sized events with capacities between 5000 and 14,999 at Abbots Ripton Hall. Abbots Ripton Hall is a well-known, well regarded festival and events site located in Cambridgeshire. The purposes of this application is to permit a number of medium sized events to take place in-line with conditions to promote the licensing objectives. Events in this category are likely to be mid-size festival events. Due to the number of attendees, these events require decent controls in terms of how the events are pre-planned and provided, but not as intensive controls are for events with more significant capacities.
