[REDACTED]	21.03.2026	I fully support this - as a larger company and being a gym, I can't see that this would be an issue. [REDACTED], and think this being this close to our address is an amazing opportunity for us to go and relax after work and be able to have a drink or food without having to drive anywhere. It's what the development lacks at the moment. Although there are plans in place for a pub to be put over on loves farm, this won't be for several years. Having the gym with the extras it will have will support myself and my partner but also be a fun space for our children in the future. I hope that the older generation don't object to this through fear or it being too noisy - because in reality if the thought about it fully - that wouldn't be allowed. Fully support
