Proposed Amendment

The site promoter for Hemingford Abbots 1: The Lattenburys, has provided the Council with a slightly amended site boundary to the one published on page 333 of the Local Plan (Appendix 1 to the Council Report). These amendments relate to the far western edge of the site including the exclusion of the wind turbine on the far western edge of the site. A map is provided below.

Additionally, the site area stated in the policy should be corrected 253 ha.

This amendment is presented here so that the change can be made to the Local Plan ahead of the Regulation 19 consultation starting enabling stakeholders to comment on the most up to date information for the site.
