
Licensing Committee

Report of the meeting held on 24th August 2006

Matter for Information

1. **GAMBLING ACT 2005 – STATEMENT OF PRINCIPLES**

The Gambling Act 2005 requires the Council to license premises where gambling takes place and to license certain other activities related to gambling.

As a first step, the Council is required to publish a Statement of Principles which outlines how it will implement the Act. The Committee, therefore, has considered a draft Statement for consultation. Having noted the timetable for its introduction and that all Members would be consulted on its contents, the Committee has approved the Statement for submission to the Cabinet.
