## **Management summary**

In Quarter 4 a total of 66,149 customers contacted Customer Services, decreased from the previous quarter's 79,902. All service levels were met both in Customer Service Centres and the Call Centre.

NI14 recording is going well at the Call Centre and Huntingdon CSC. Early analysis of the results is due to take place within the next two weeks. Back office training and data capture is planned with all relevant departments during February and early March, avoiding office moves. A report will go to COMT in April detailing the overall percentage of avoidable contacts with a breakdown by department. Invites will be sent to discuss the findings with Heads of Service between 27-Apr and 04-May. Click here for more information about NI14.

Author: John McKinnie

Employee satisfaction levels within Customer Services increased from 84% in June to 90% in December, both well above the target of 75%. Customer satisfaction as measured at the Call Centre continued at a high level, averaging 97% for the quarter. Customer complaints as measured at the Call Centre showed a decrease to 0.8% of all requests for service. This is a decrease form the previous quarter's result of 1.5%. More details of this are shown in Appendix C.

In it's early stages Customer Service have been leading a working group of representatives from Benefits, Web and Leisure to use Mosaic data to gain a greater insight into our customers and the best way to reach them, to be reviewed after a year. Policy will take over the lead in February on the return of Dan Buckridge. Click <a href="here">here</a> for more information about Mosaic.

Finally, the Customer Service Team have developed Service Standards for customers and shared this with all departments, since customers may assume the standards apply to the whole of HDC. Due to necessary differences between departments more work is to be done to create an A-Z of Service Standards and place this on the HDC website.

### **Customer Service Centres**

During the quarter the Customer Service Centres (CSCs) dealt with 26,875¹ customer enquiries, compared to the previous quarter total of 34,311. A breakdown of this figure by location is shown on the right, and details of the enquiry types by month are shown in Appendix A.

The CSCs exceeded all their customer service levels during the quarter. At Huntingdon CSC customers queued on average just under 5 minutes and 95% of customers were seen within 10 minutes (target 75%). A monthly breakdown of these figures is shown in Appendix B.

On only the second time of measurement CSC employees showed an encouraging overall increase in satisfaction levels, from 81% in June to 86% in December.

### **Customer Service Centres' enquiries per month**

<b></b> Yaxley CIC	1,014	772	716	1,000	989	946	1,151	952	668

In the first internal survey of how staff felt about the CSCs a fantastic 98% recorded satisfaction with the services they were offered. Almost 10 out of 10 responses showed staff were either satisfied or very satisfied that the CSCs were meeting their key objectives in respect of service departments.

<sup>&</sup>lt;sup>1</sup> From Nov-08 onward visits to St Neots museum are not included in figures.

### **Call Centre**

Customers contacting the Call Centre during the quarter totalled 39,274, split between 37,076 calls and 2,198 emails. For calls, 98% or 36,310 were answered (target 95%). Volumes generally fell towards the end of the year from the previous quarter's total of 42,727. Appendix F shows the volume of calls over the last 12 months.

The call Centre exceeded all its customer service levels during the quarter. Performance for the last 12 months on the Call Centre's two main service levels is shown in the graph to the right.

The Charter Mark award was retained for another year at the Call Centre following the annual external review in December. To see

the exacting criteria used to measure the Call Centre click <a href="here">here</a>.

Author: John McKinnie

As part of the ongoing customer satisfaction survey, the percentage of customers who were satisfied or very satisfied with the service received remained consistent at 97%.

Call Centre employees recorded an overall increase in satisfaction levels, from 87% in June to 93% in December.

Appendix C shows the complaints received by the Call Centre, representing 0.8% of all requests for service. This shows a decrease from the previous quarter's score of 1.5%. Appendices D & E show details of service & information requests received by the Call Centre.
