### Narrative Report

### By the Head of Resources

As the Council's Responsible Financial Officer, I am pleased to present the Council's 2015/16 Annual Financial Report which outlines the Council's financial performance for the year ended 31 March 2016.

The purpose of this foreword is to provide a guide to the most significant matters reported in the Council's accounts and is in three sections.

- Commentary and review of 2015/16.
- The Financial Statements
- Technical information

### Commentary and review of 2015/16

### Review of the Year

2015/16 has been another challenging year for the Council with the reduction of grant funding from Central Government as austerity measures continue.

The Council set a net budget for the year of £19.678m (2014/15; £20.870m), a net decrease of £1.192m (5.71%). After allowing for the following non-ring fenced government grants:

- Revenue Support Grant of £3.183m (2014/15; £4.562m),
- Business Rates Retention scheme (NDR) of £4.160m (2014/15; £4.218m),
- New Homes Bonus and Council Tax Freeze Grant £4.585m (2014/15; £3.426m),
- Council Tax Collection Fund surplus of £82,000 (2014/15; £21,000)

and a contribution to revenue reserves of £0.797m (2014/15; £1.005m contribution from reserves), this left the Council to raise £7.768m (2014/15; £7.639m) from Council Tax. This equated to a Council Tax of £133.18 (2014/15; £133.18) for a Band D equivalent property, freezing the Council Tax for a third year running.

How the Council performed against its objectives and budget are detailed below. Further information can be found in the June 16 Cabinet report (link to be inserted).

### Council Objectives

The following paragraphs outline how the Council has performed during 2015/16:

### Theme: Strong local economy

- A fast track pre-application planning advice was set up for potential growing businesses. However, only one enquiry has been received and this was not dealt with within the 'fast track' target set.
- 'EDGE smarter skills for enterprise' public/private sector partnership launched to improve the area's business and education-training skills match.
- Work with Greater Cambridgeshire Greater Peterborough Local Enterprise Partnership (LEP) has secured £10.5m of for the delivery of the iMET (Innovation, Manufacturing, and Engineering Technology) training centre on the Enterprise Zone at Alconbury. This will offer Advanced and Higher level apprenticeships, HNC/HND engineering courses, short specialist courses, digital technology training, sector leadership and management courses.

• There is currently some uncertainty about the impact of a devolution deal for the area on how we work with our Local Enterprise Partnership.

### Theme: Enable sustainable growth

- A loan has been provided to the Luminus housing association to deliver an extra care housing scheme in St Ives, meeting a need identified in that area.
- Progress on major development sites has included the start of the first phase of housing on the Alconbury Weald site, with 128 houses under construction. Discussions are underway with two housebuilders for around 500 more dwellings. The construction of the first houses on the Bearscroft development in Godmanchester was expected to commence in April 2016.
- Plans for significant housing sites in St Neots are still being developed, with the Council minded to refuse application for 2,800 houses at Wintringham Park (part of St Neots East) on the basis that insufficient affordable housing is being proposed as part of the development and submission of viability information for Loves Farm East (the other part of St Neots East) still awaited.
- The number of unintentional priority homeless acceptances has increased despite the preventative measures taken by our housing services. Only 49 new affordable homes were provided last year, with a forecast of just 541 net additional homes delivered in Huntingdonshire in 2015/16.
- However, the Council's methodology for calculating its 5 year housing supply was endorsed by a planning inspector in February 2016, with the Annual Monitoring Report 2015 (AMR) confirming that HDC has a 5 year housing land supply of 5.23 years as at 31 December 2015. The trajectory data in the AMR projects that 541 dwellings will be completed in 2015/16 rising to 940 and 1214 in 2016/17 and 2017/18 respectively.
- The development of the Local Plan 2036 has been affected by delays, including a wait for re-validation of the County Council's Sub-Regional Transport model to allow modelling of transport impacts and required mitigation of Local Plan allocations including Wyton Airfield.
- Three key planning policy actions have not progressed due to the prioritisation of other work, with no progress on the development of a market town centre improvement strategy and action plan for St Neots, the 'Buildings at Risk' register not updated and an update to the Design Guide deferred to 2016/17.

### Theme: Working with our communities.

- The One Leisure Active Lifestyle service, promoting active lifestyles, healthy activities and sports development, achieved its best ever overall attendances at 48,292, up 5% on the previous year. Group exercise classes, the exercise referral scheme, adult sports activities, disabled sports and PEDALS all achieved best ever results. However, there was a reduction in throughput on targeted diversionary activities for young people (Street Sports), partly due to the weather and dark nights but also affected by stretched staffing resources due to an employee resignation.
- The target of achieving 200 home energy assessments through the Action on Energy scheme to help reduce fuel poverty and improve health was exceeded by the end of September. There are currently no grant schemes available to promote to local residents.

- The Council has published a Neighbourhood and Community Planning Guide setting out how it will support community planning, including working with parishes to complete neighbourhood and parish plans. Following a referendum, the St Neots Neighbourhood Plan was made at the February 2016 Council meeting.
- Waste collection performance was below target at the end of the year, with the number of bin collections missed higher than in 2014/15 and the percentage of household waste recycled or composted lower than in 2014/15.

### Theme: Ensuring we are a customer focused and service led council

- The employee survey undertaken in summer 2015 showed improvements in nearly all results compared to the previous year, although we recognise that the results are not as good as we would want. Progress is underway on delivering an action plan developed to address issues identified through the survey and improve the results.
- The Council launched a new website in October 2015 which has resulted in significant improvements to speed and content. The amount of content to be maintained has reduced and the site is more customer focussed with a lower reading age and a mobile friendly layout. Savings of approx. £7k/year have been realised compared to the previous system and customer feedback has been very positive. The Council also adopted a new Customer Service Strategy with all services expected to take actions to help meet the objectives and deliver the outcomes.
- Customer satisfaction levels among call centre (94.3%) and customer service centre (92.2%) customers, as measured through recent surveys, remain high but fell compared to 2014/15 and were below target. Staff shortages have affected this performance.
- Sickness absence across the Council during 2015/16 was at the worst level recorded for a twelve month period at 11.7 working days lost/FTE. This is mainly as a result of a very high level of long-term sickness absence relating to a small number of employees.
- The One Leisure service achieved a surplus for the first time ever, with a record high income of £6.9m and expenditure levels reduced by £200k compared to the previous year. The outturn surplus was over £420k, which is an improvement of nearly £0.5m compared to 2014/15, based on directly controllable expenditure and income. The figures in Note 25 show the operations financial position after capital charges and overheads.
- Processing of Housing Benefit and Council Tax Support claims has improved, with new claims and change events processed within the targets set for the year. Collection of Council Tax and Business Rates has improved, with 98.5% of Council Tax and 99% of Business Rates collected.
- The 3C Shared Services partnership with Cambridge City Council and South Cambridgeshire District Council is underway with shared Building Control and Legal services being led by Cambridge City and a shared ICT service led by Huntingdonshire. These services will deliver savings in the region of 15% in addition to improving resilience and customer service.
- Since the autumn of 2014, the Council has undertaken a Zero Based Budgeting (ZBB) programme that has fundamentally reviewed all Council services. The review entailed all Heads of Service to review their respective service and then report to a

Star Chamber, led by the Executive Councillor for Resources along with the Leader and Deputy Leader of the Council.

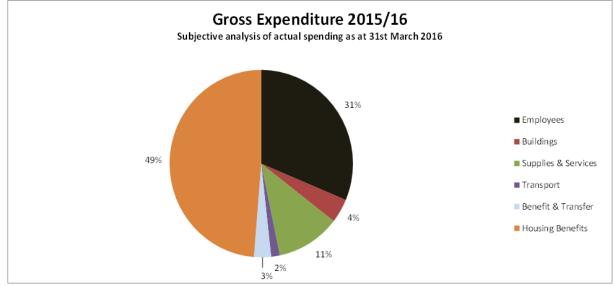

### **Revenue Spending and Sources of Income**

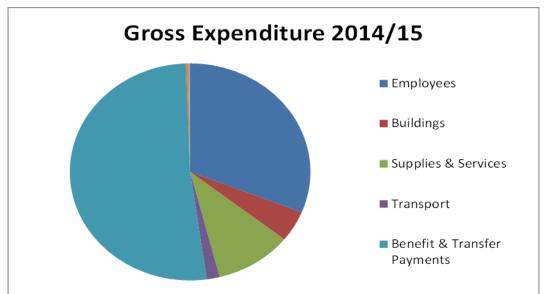

The Table below sets out the Council's budget for 2015/16 and how it performed against this and details out the main sources of income the Council receives to pay for its services.

2014/15 Outturn £000		Budget £000	2015/16 Outturn £000	Variation £000
	Service			
2,093	Community	2,130	1,674	(456)

2,018	Contribution from Collection Fund Reserve	Ó	(1,492)	(1,492)
(7,640)	Council Tax For Huntingdonshire DC	(7,768)	(7,768)	Ó

# Analysis of Revenue Income & Expenditure

The Council spent £73.855m in 2015/16 and the chart below shows the type of expenditure this was spent on.

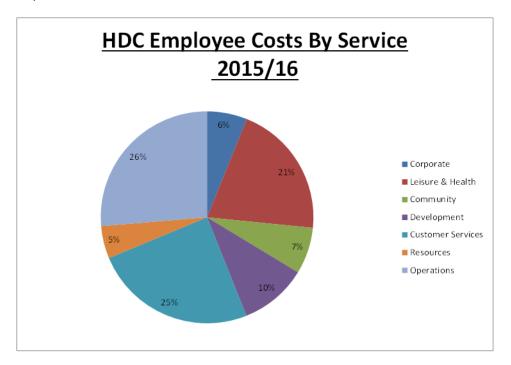

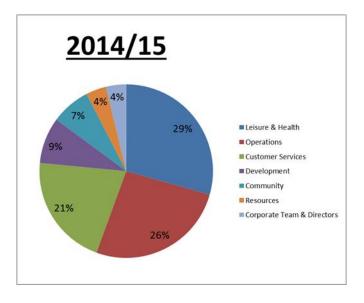

**Note:** These figures are different from thos in the Comprehensive Income and Expenditure Statement as that is based on accounting regulations and contains a number of costs that are not included in the above figures as they are not part of the Council's management accounts, for example depreciation charges.

# **Employee Expenditure**

As can be seen from the graph above, the Council's biggest expenditure (excluding Housing Benefits which it does not control), and resource, is its staff. In 2015/16 it spent £23.052m (£22.259m 2014/15). The chart below show how this spend was split across the Council's departments.

### Reserves

The table below shows the movement in the useable reserves during the year to 31<sup>st</sup> March 2016.

Revenue Usable	B/f	Contributions		C/f
Reserves 2015/16		То	From	
	£000	£000	£000	£000
General Fund	9,287	0	(6,750)	2,537
Earmarked				
Capital Investment	4,737	7,653	0	12,390
Delayed Projects	262	0	(262)	0
Special Reserve	2,500	0	(175)	2,325
S.106	2,903	272	(217)	2,958
Other	5,295	3,875	(2,833)	6,337
	15,697	11,800	(3,487)	24,010
Total Usable Reserves	24,984	11,800	(10,237)	26,547

The 2015/16 Outturn report reported a service expenditure underspend of £0.805m against the original budget approved in February 2015. On the 23rd June 2016 the report was presented to Cabinet who approved the reports' recommendation for the following transfers to Earmarked reserves:

- £0.244m Collection Fund Reserve
- £0.110m Democratic & Organisational Governance Initiative
- £0.471m Efficiency Initiatives

### **Capital Spending**

The final capital budget for 2015/16 was  $\pounds$ 9.300m plus loans to other organisations of  $\pounds$ 2.300m and the table below shows the movement from the original capital programme approved in February 2015.

Capital Programme	£m	£m
Original Approved Capital Programme 2015/16 Approved Slippage from 2014/15	9.637 (0.274)	
Updated Capital Programme for 2015/16	(0.274)	9.363
Capital Outturn		5.534
Variation Against Updated Budget		(3.829)

The original net capital budget was £9.637m. In addition to this schemes were slipped from 2014/15 totalling (£0.274m), this resulted in an updated budget for the year of £9.363m. A combination of factors during the year have resulted in a gross expenditure of £7.495m, £0.823m on assets, £3.003m of grants and contributions, £1.362m on Commercial Investment Strategy, £2.302m on loans and £5,000 on intangible assets.

Additionally grants and contributions received of  $\pounds$ 1.119m, S106 grants of  $\pounds$ 0.080m and service capital receipts of  $\pounds$ 0.762m (total capital receipts were  $\pounds$ 1.991m) were netted from expenditure to give a capital programme outturn of  $\pounds$ 5.534m.

The most significant schemes in 2015/16 were £1.480m spent on Disabled Facilities Grants and the Community Infrastructure Levy advanced of £1.490m. In addition there was expenditure of £0.250m on replacing vehicles and £0.310m spent on Leisure schemes.

The council also spent £1.360m on the purchase of an industrial unit at Stonehill, Huntingdon, as part of the initial investments made as part of the Commercial Investment Strategy. This purchase has been financed by use of an earmarked general fund reserve.

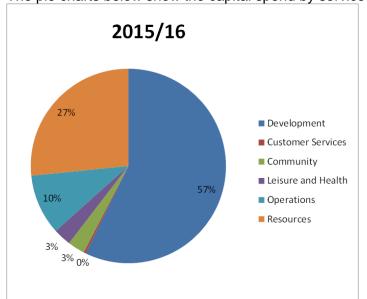

Sales of assets in the year included clawback of housing right to buy receipts (£0.875m), the sale of the GreenHouse environmental home at St Ives (£0.295m), the sale of Land at St Marys Street Huntingdon (£0.432m), and the Hermitage at Earith (£0.144m). The total receipts (£1.994m) including repayments of loans (£0.194m) have been used to reduce the requirement to borrow to finance the capital programme, and reduced the amount that will be provided for the minimum revenue provision in future years.

The table below shows the breakdown of the capital spend by project, the capital contributions and the funding pie charts show the capital spend by service area.

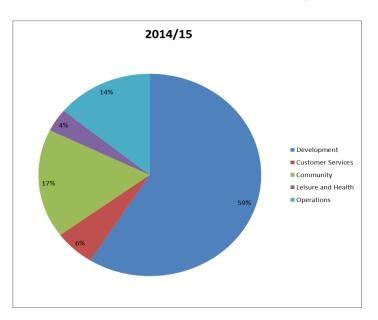

2014/15 £m	Capital Spending	2015/16 £m
0.1	Environmental Projects	0.1
1.4	Housing Grants	1.5
0.8	Vehicle Replacement Programme	0.3
0.5	Information & Communication Technology	0.0
0.2	Leisure & Recreation	0.3
0.0	Stonehill Huntingdon	1.4
0.0	Community Infrastructure Levy Schemes	1.5
4.2	Other	0.1
7.5	Gross Expenditure	5.2

	Funded from	
(0.1)	Borrowing	(2.3)
(0.1)		(2.3)

# **Capital Expenditure by Service**

The pie charts below show the capital spend by service area for 2015/16.

### Treasury Management

The main purpose of the Treasury Management Strategy is to:

- Ensure the Council has sufficient cash to meet its day to day obligations.
- Borrow when necessary to fund capital expenditure, including borrowing in anticipation of need when rates are considered to be low.
- Invest surplus funds in a manner that balances low risk of default by the borrower with a fair rate of interest.

# The key market Treasury Management issues though 2015/16 influencing the Council's decision-making were:

- A moderate improvement in the credit rating of financial institutions.
- The introduction of legislation (bail-in replaces bail-out) placing the burden of rescuing failing EU banks disproportionately onto unsecured institutional investors including local authorities.
- A continuation of the Bank of England's policy of very low interest rates, with the result that market rates also remain very low. The Council average investing rate was 0.41%.

#### The Council's response to the key issues in 2015/16 was:

- Where the Council has surplus funds to primarily make short term investments (the majority on call on a daily basis) in liquidity accounts and money market funds.
- Where possible to take a higher return without sacrificing liquidity.
- When borrowing the Council has used the Public Works Loan Board (PWLB), which
  offers low fixed rate borrowing over a long period. The average interest rate paid was
  3.70%

### Looking to the Future

Austerity across the public sector is a continuing them of the current Government and is expected to continue through to 2020. In 2014/15 the Council adopted a strategy, referred to as the 'Plan on a Page', that sought to meet the financial challenges that were being faced and to move to a position of financial independence from Central Government, i.e. not to be reliant on central government grant for financing services. Two key pillars of the 'Plan on a Page' are:

- Zero Based Budgeting across the Council
- Implementation of a Commercial Investment Strategy

The Council set a balanced budget for 2016/17, which included a contribution to reserves of  $\pounds 2.276$ m, as a result of having carried out a full ZBB exercise across all services and find  $\pounds 2.237$ m savings in 2016/17 increasing to  $\pounds 3.988$ m by 2020/21. However by the end of the Council's Medium Term Financial Strategy in 2020/21, after assuming the complete removal of non-ring fenced government grants, there is a reliance on contributions from reserves of  $\pounds 3.604$ m.

As a result of this the programme of ZBB reviews will continue into 2017/18 and future years.

The second major pillar of the Councils' Plan on a Page' is the Commercial Investment Strategy. This was approved by the Council in December 2015 and approved the use of the Council's resources, both cash reserves and borrowing abilities, to invest in commercial investments in order to generate a return that will further allow the Council to become financially self-sufficient.

### **The Financial Statements**

The Council's financial statements for 2015/16 have been prepared in accordance with the:

- Standard format for local authority accounts recommended by the Chartered Institute of Public Finance and Accountancy (CIPFA) for the Statement of Accounts in 2015/16 as prescribed by the Code of Practice on Local Authority Accounting in the United Kingdom 2015/16 based on International Financial Reporting Standards.
- Accounts and Audit Regulations 2011.

The primary financial statements are supported by explanatory notes, including details of the accounting policies adopted by the Council.

### The Comprehensive Income and Expenditure Statement (CIES)

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, *rather than the amount to be funded from taxation*. Authorities raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the movement in reserves statement.

### **Movement in Reserves Statement**

The CIES differs from the Council's management accounts, as it contains a number of transactions that are required for accounting purposes but then removed from the accounts as they are deemed not to be covered by Council Tax. These movements happen in the

**Movement in Reserves Statement (MiRS)** and in a reconciliation between the two positions in shown in note 24 to the accounts.

This statement also shows the movement in the year on the different reserves held by the Council, analysed into 'useable reserves', (i.e. those that can be applied to fund expenditure or reduce local taxation) and 'unusable' reserves. A final adjustment shows any discretionary transfers to or from earmarked reserves undertaken by the Council.

### Balance Sheet

The Balance Sheet shows the value at the 31 March of the assets and liabilities recognised by the Council. The net assets of the Council (assets less liabilities) are matched by the reserves held by the Council. Reserves are reported in two categories. The first category of reserves are useable reserves, i.e. those reserves that the Council may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use (for example the Capital Receipts reserve that may only be used to fund capital expenditure or repay debt). The second category of reserves are unusable and includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement at the line entitled 'Adjustments between accounting basis and funding basis under regulations'.

	31 March 2016 £m
Long Term Assets	90.952
Current Assets	14.612
Current Liabilities	(10.223)
Long Term Liabilities	(81.954)
Net Assets	13.387
Useable Reserves	31.219
Unusable Reserves	(17.832)
Total Reserves	13.387

The Balance Sheet has moved from a negative balance position in 2014/15 (£3.694m) to a positive position as shown above. The principle reason for this movement (£15.516m) is an improvement in the Pension Fund and Liability of £11.446m. A detailed explanation of the Councils pension liabilities is shown in Note.35 Defined Benefit Pension Scheme and in summary:

- The deficit on the local government scheme will be made good by increased contributions over the remaining working life of employees (i.e. before payments fall due), as assessed by the scheme and actuary.
- Finance is only required to be raised to cover discretionary benefits when the pensions are actually paid.

At this time, the statutory arrangements for funding the Pension deficit mean that the financial position of the Council continues to remains healthy.

### The Cash Flow Statement

The Cash Flow Statement shows the changes in "cash" (cash and cash equivalents) of the Council during the reporting period. The statement shows how the Council generates and uses "cash" by classifying cash flows as operating, investing and financing activities. The

amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Council are funded by way of taxation and grant income or from the recipients of services provided by the Council. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Council's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Council.

Net cash flows from:	31 March 2016 £m
- operating activities	0.898
- investing activities	(2.457)
- financing activities	1.992
Net increase or (decrease) in cash and cash equivalents	0.433
Cash & Cash Equivalents	
- at the beginning of the reporting period	2.695
- at the end of the reporting period	3.128

### **The Collection Fund Revenue Account**

The Collection Fund is a separate account into which are paid amounts raised from local taxation. As well as including amounts collected in respect of Council tax, it now includes amounts collected from local businesses, which following the introduction of the Local Business Rates scheme, now means that Non-Domestic Rates as distributed subject to predetermined government set formulae. The Fund also accounts for payments due to preceptors.

### **Technical Information**

### **International Financial Reporting Standards**

The Council has reported its financial position based on the requirements of International Financial Reporting Standards (IFRS) and this is encapsulated within the Code of Practice on Local Authority Accounting in the United Kingdom 2015/16.

### **Statement of Accounting Policies**

The accounting polices applicable to the 2015/16 statement of accounts are, in the main, the same as those that were applied to the 2014/15.

### **True and Fair View Override**

As required by the Accounts and Audit Regulations 2015, paragraph 8.2, it is noted that the Responsible Financial Officer has not had to use the "true and fair view override".

### **Changes to the Statement of Accounts**

There are no material changes to the Statement of Accounts.

### Material and Unusual Charges or Credits in the Accounts

There are no material and unusual charges or credits in the accounts.

### Material Events after the Reporting Date

There have not been any material events after the reporting date.

### Material Assets Acquired or Liabilities Incurred

There have not been any material assets acquired or liabilities incurred during the year.

### **Changes in Statutory Functions**

There were no changes in statutory functions in 2015/16.

Clive Mason FCPFA

Head of Resources

30<sup>th</sup> September 2016

### **Statement of Responsibilities**

### The Authority's Responsibilities

The Authority is required to:

- make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this Authority, that officer is the Head of Resources;
- manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets; and
- approve the Statement of Accounts.

### The Head of Resources Responsibilities

The Head of Resources is responsible for the preparation of the authority's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC *Code of Practice on Local Authority Accounting in the United Kingdom* (the Code).

In preparing this Statement of Accounts the Head of Resources has:

- selected suitable accounting policies and applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with the local authority Code.

The Head of Resources has also:

- kept proper accounting records which were up-to-date;
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

I certify that the Statement of Accounts presents a true and fair view of the financial position of the Authority at 31 March 2016 and its income and expenditure for the year ended 31 March 2016

Clive Mason FCPFA Head of Resources

31<sup>st</sup> May 2016

### **Chairman's Approval of the Statement of Accounts**

This is the Annual Financial Report, incorporating the Statement of Accounts with all audit activities completed. The Corporate Governance Committee of Huntingdonshire District Council at its meeting on 14<sup>th</sup> September 2016 delegated authority to me as Chairman of the Panel to approve the Statement of Accounts.

**Cllr Mike Frances** Chairman of the Corporate Governance Panel

XX<sup>th</sup> September 2016

### **Movement in Reserves Statement**

	General Fund Balance	Earmarked General Fund Reserves	Capital Grants Unapplied £000	TOTAL USEABLE RESERVES	Unusable Reserves	TOTAL COUNCIL RESERVES
	£000	<b>£000</b> Note 8	Note 29	£000	<b>£000</b> Note 20	£000
Movement in reserves during 2015/16

### Note 1. Accounting Policies

### Accounting Policies in respect of Concepts and Principles

### General Principles

The Statement of Accounts summarises the Council's transactions for the **2015/16** financial year and its position at the year-end of 31 March **2016**. The Council is required to prepare an annual Statement of Accounts by the Accounts and Audit (England) Regulations 2011 in accordance with proper accounting practices. These practices comprise the Code of Practice on Local Authority Accounting in the United Kingdom **2015/16** and the Service Reporting Code of Practice **2015/16**, supported by International Financial Reporting Standards (IFRS).

The underlying concepts of the accounts include the:

- Council being a 'going concern' all operations continuing
- Accrual of income and expenditure placing items in the year they relate to rather than the year they take place
- Primacy of legislative requirements legislation overrides standard accounting practice

The accounting statements are prepared with the objective of presenting a true and fair view of the financial position and transactions of the Council.

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

The accounting policies are reviewed on an annual basis to ensure that they are appropriate, compliant with accepted accounting practice and relevant to the Council's ongoing business activity.

### Government Grants and Contributions (IAS 20)

Government grants and third party contributions and donations are recognised as due to the Council when there is reasonable assurance that:

- the Council will comply with the conditions attached to the payments, and
- the grants or contributions will be received.

Amounts recognised as due to the Council are credited to the Comprehensive Income and Expenditure Statement if the conditions attached to the grant or contribution have been met. However, if the conditions require that the grant or contribution is returned where these conditions are not met, it cannot be credited to the Comprehensive Income and Expenditure Statement.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors (Receipts in Advance). When conditions are satisfied, the grant or contribution is credited to the relevant service line or Taxation and Non-Specific Grant Income (non-ringfenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied Account. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied Account are transferred to the Capital Adjustment Adjustment Account once they have been applied.

The Council receives monies from developers, S106 monies, which are credited to the Comprehensive Income and Expenditure Statement and transferred to an earmarked fund. The condition for these contributions is that they are returnable 10 years after receipt if they are not used. It is considered that 10 years is too far into the future to be treated as receipts in advance.

### > Accruals of Income and Expenditure

Income and expenditure are accounted for in the year to which they relate, not simply when cash payments are made or received, by the creation of debtors and creditors which are recorded in the Balance Sheet. In particular:

- Revenue from the sale of goods is recognised when the Council transfers the significant risks and rewards of ownership to the purchaser and it is probable that economic benefits or service potential associated with the transaction will flow to the Council.
- Revenue from the provision of services is recognised when the Council can measure reliably the percentage of completion of the transaction and it is probable that economic benefits or service potential associated with the transaction will flow to the Council.
- Supplies are recorded as expenditure when they are consumed where there is a gap between the date supplies are received and their consumption; they are carried as inventories on the Balance Sheet.
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where revenue and expenditure have been recognised, but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.
- Where the Council is acting as an agent for another party (e.g. in the collection of NDR and Council tax), income and expenditure are recognised only to the extent that commission is receivable by the Council for the agency services provided or the Council incurs expenses directly on its own behalf in providing the services.

### > Overheads and Support Services

The costs of overheads and support services are charged to services on the basis of use in accordance with the costing principles of the CIPFA Service Reporting Code of Practice 2014/15. The basis of the charge varies according to the nature of the support service provided (e.g. administrative buildings are apportioned on the basis of area occupied.) The total absorption costing principle is used – the full cost of overheads and support services are shared between users in proportion to the benefits received, with the exception of:

- Corporate and Democratic Core costs relating to the Council's status as a multifunctional, democratic organisation.
- Non-Distributed Costs for example the cost of lump sum employer contributions to the pension scheme.

These two cost categories are defined in the Service Reporting Code of Practice and accounted for as separate headings in the Comprehensive Income and Expenditure Statement.

The cost of overheads relating to staff time spent on capital projects is treated as a revenue charge to the service rather than a charge to the capital project.

### > Changes in Accounting Policies, Prior Period Adjustments, Estimates and Errors

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, or other events and conditions on the Council's financial position or financial performance. Where a change is made, it is applied retrospectively, if material, by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied. For **2015/16**, there are no new accounting policies in respect of statutory requirements or to ensure local circumstances are better reflected within the Annual Report.

Changes in accounting estimates are accounted for prospectively, i.e., in the current and future years affected by the change and do not give rise to a prior period adjustment.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

### Exceptional Items

When items of income and expense are material, their nature and amount are disclosed separately, either on the face of the Comprehensive Income and Expenditure Statement or in the notes to the accounts, depending on how significant the items are to an understanding of the Council's financial performance.

### Interest Receipts

Interest receipts credited to the General Fund include all amounts received in respect of balances held and invested externally, except for interest earned on the S106 reserve (one of the earmarked reserves) which is credited to that reserve. Interest receipts are included in the Financing and Investment Income and Expenditure section of the Comprehensive Income and Expenditure Statement.

### Reserves

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement; they are included in the Balance Sheet as the General Fund Balance, Capital Reserve, Earmarked Reserves or Capital Grants Unapplied.

When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to count against the Surplus/Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against council tax for the expenditure.

However, there are other reserves that cannot be used to finance expenditure:

- Capital Adjustment Account these are capital resources set aside to meet past expenditure.
- Revaluation Reserve the gains of valuation of assets not yet realised by sales.

- Financial Instruments Adjustment Account balancing account to allow for differences in statutory requirements and accounting requirements for borrowing and investments.
- Collection Fund Adjustment Account holds the difference between the income included in the Income and Expenditure Account and the amount required by regulation to be credited to the General Fund.
- Pensions Reserve balancing account to allow the pensions liability to be included in the Balance Sheet.
- Accumulated Compensated Absences Adjustment Account the value of untaken leave and other employee benefits.

### Value Added Tax

VAT payable is included as an expense only to the extent that it is not recoverable from Her Majesty's Revenue and Customs. VAT receivable is excluded from income.

### > Events after the Balance Sheet Date

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- Those that provide evidence of conditions that existed at the end of the reporting period - the Statement of Accounts is adjusted to reflect such events.
- Those that are indicative of conditions that arose after the reporting period the Statement of Accounts are not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

### > Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that mature in three months or less from the investment date and that are readily convertible to cash with insignificant risk of change in value.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management.

### Accounting Policies in respect of Non-Current Assets

### Property, Plant and Equipment (IAS 16)

Assets that have physical substance and are held for use in the provision of goods or services, for rental to others or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits associated with the item will flow to the Council and the cost of the item can be measured reliably. Expenditure that maintains but does not add to an asset's potential to deliver future economic benefits or service potential (i.e. repairs and maintenance) is charged as an expense when it is incurred.

There is a de minimis level of  $\pounds$ 10,000 however, where the cumulative value of individual assets is greater than  $\pounds$ 10,000 and they meet the criteria for recognition they will be capitalised.

Measurement

Assets are initially measured at cost, comprising:

- the purchase price;
- any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management; and
- the initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

Donated assets are measured initially at fair value. The difference between fair value and any consideration paid is credited to the Taxation and Non-Specific Grant Income line of the Comprehensive Income and Expenditure Statement.

Assets are then carried in the Balance Sheet using the following measurement bases:

0	Fair Value:	Land and Buildings, Investment Properties
0	Depreciated Historic Cost:	Vehicles, Plant and Equipment, Infrastructure,
		Intangibles
0	Historic Cost:	Community Assets, Assets Under Construction
		Assets Held for Sale

Where there is no market-based evidence of fair value because of the specialist nature of an asset, depreciated replacement cost is used as an estimate of fair value.

Assets included in the Balance Sheet at fair value are revalued regularly to ensure that their carrying value is not materially different from their fair value at the year end, but as a minimum every three years. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of an impairment loss previously charged to a service revenue account. Thus there is no impact on the council tax.

Where decreases in value are identified, the revaluation loss is accounted for:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains); and
- where there is no balance in the Revaluation Reserve or insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

The Revaluation Reserve contains revaluation gains recognised since 1 April 2007 only. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Components

The Council will separately account for components where the cost of the component is significant in relation to the overall total cost of the asset, and the useful economic life of the component is significantly different from the useful economic life of the asset.

Individual components with similar useful lives and depreciation methods will be grouped.

For this purpose a significant component cost would be 10% of the overall total cost of the asset but with a de-minimis component threshold of £100,000.

This policy has been applied prospectively when non-current assets have been revalued and will be considered only for new revaluations carried out after 1st April 2012 and when enhancement and/or acquisition expenditure is incurred after that date. The only assets that have been split into components in the 2015/16 accounts are offices and leisure centres. This is consistent with the prior year.

The impact is that some components have a useful life of between 15 and 35 years, which in some instances is different to the useful life of the main asset and therefore the depreciation charge varies from that based on the same useful life for the whole asset.

• Impairment

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where there is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for:

- where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains); and
- where there is no balance in the Revaluation Reserve or insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

• Disposals and Non-Current Assets Held for Sale

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale. The asset is revalued immediately before reclassification and then carried at the lower of this amount and fair value less costs to sell. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any previously recognised losses. Depreciation is not charged on Assets Held for Sale.

If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified back to non-current assets and valued at the lower of their carrying amount before they were classified as held for sale; adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as Held for Sale, and their recoverable amount at the date of the decision not to sell.

Assets that are to be abandoned or scrapped are not reclassified as Assets Held for Sale.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts received for a disposal in excess of £10,000 are categorised as capital receipts. The balance of receipts is required to be credited to the Capital Receipts Reserve, and can then only be used for new capital investment or set aside to reduce the Council's underlying need to borrow (the capital financing requirement). Receipts are appropriated to the Reserve from the General Fund Balance in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against council tax, as the cost of property, plant and equipment is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

Depreciation

Depreciation is provided for on all Property, Plant and Equipment assets by allocating the value of the asset over their useful lives. An exception is made for assets where the finite useful life cannot be determined, (i.e. land and Community Assets) and assets that are not yet available for use (i.e. assets under construction).

Asset Type	Depreciation basis	Useful Economic Life
Operational Buildings	Straight-line allocation over the estimated life of the building or component where identified separately	5 years to 45 years
Vehicles, Plant, Furniture & Equipment	Straight line allocation over the estimated life of the	1 year to 48 years
Infrastructure	asset	3 years to 44 years

Where an item of Property, Plant and Equipment asset has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately.

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

The residual value of the assets is reviewed at least every five years and the depreciation adjusted to match any change in the life of the asset.

### Year of depreciation charge

The depreciation charge will generally commence in the year after the addition of the asset, unless the in-year depreciation charge would have a material impact.

### > Depreciation and other Charges to Revenue for Non-Current Assets

Services, support services and trading accounts are debited with the following amounts to record the cost of holding property, plant and equipment during the year:

- depreciation attributable to the assets used by the relevant service
- revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off
- amortisation (annual charge) of intangible assets attributable to the service.

The Council is not required to raise council tax to cover depreciation, revaluation and impairment losses or amortisation. However, it is required to make an annual provision from revenue, known as the minimum revenue provision (MRP), to contribute towards the reduction in its overall borrowing requirement. Depreciation, revaluation and impairment losses and amortisation are therefore replaced by MRP in the General Fund Balance, by way of an adjusting transaction within the Capital Adjustment Account in the Movement in Reserves Statement to reflect the difference between the two.

The basis for calculating MRP is restricted by legislation and the policy has to be approved by the Council. From 2013/14, the Council adopted the following which clarifies the policy to be applied in differing circumstances:

### i. <u>MRP Policy in respect of Loans to Organisations or Loans with Security (as defined</u> within the Treasury Management Strategy)

Where the Council has provided:

- loans to local organisations or businesses, and/or
- loans with security

and these loans are repaid on, at least an annual basis, that the principal repayments received can replace the need to make a minimum revenue provision.

#### ii. MRP Policy in respect of Debt not relating to Loans to Organisations

MRP for this category will be on an annuity basis. This results in the MRP increasing over the life of the asset to match the fall in the interest cost as the debt is "notionally" repaid. The net result is a consistent charge to the Council's accounts over the assumed life of the asset.

#### iii. MRP Policy in respect of the Commercial Investment Strategy

For each capital investment undertaken under the requirements of the Council's Commercial Investment Strategy, MRP will be made that is equal to the principal repayment for any loan finance supporting the investment.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal; receipts from disposals are credited to the same line. Any accumulated revaluation gains in the Revaluation Reserve are transferred to the Capital Adjustment Account.

### Heritage Assets

# Tangible and Intangible Heritage Assets (described in this summary of significant accounting policies as heritage assets)

Heritage Assets are those that are held and maintained by the Council principally for their contribution to knowledge and culture. Such assets can have historical, artistic, scientific, geophysical or environmental qualities.

Heritage Assets are recognised and measured (including the treatment of revaluation gains and losses) in accordance with the Authority's accounting policies on property, plant and equipment. However, some of the measurement rules are relaxed in relation to heritage assets as detailed below.

The Authority's Heritage Assets are accounted for as follows:

Cultural

The Council has identified the Norman Cross and Eagle as a Heritage Asset and this is disclosed in the Balance Sheet, based on insurance valuation, at £0.065m. It should be noted that there is no phased basis of valuation. This asset is:

- deemed to have an indeterminate life and consequently the Council does not consider it appropriate to charge depreciation.
- static and located at Norman Cross, Cambridgeshire, near to the intersection with the A1.
- Mayoral Regalia and Art Collection

The Council has two mayoral chains of office and two paintings; however the total estimated value of these assets, based on insurance valuations, is £0.033m. As individually these assets are not material, they have not been included in the Balance Sheet.

### Intangible Assets

Expenditure, on an accruals basis, for assets that do not have physical substance but are identifiable and controlled by the Council (e.g. software licences) are capitalised where they will bring benefit for more than one year. The balance is amortised (charged) to the relevant service revenue account over the economic life of the investment to reflect the pattern of consumption of benefits.

Intangible assets are measured initially at cost. Amounts are only revalued where the fair value of the assets held by the Council can be determined by reference to an active market. The depreciable amount of an intangible asset is amortised over its useful life and debited to the relevant service lines in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that the asset might be impaired – any losses recognised are debited to the relevant service lines in the Comprehensive Income and Expenditure Statement.

Any gain or loss arising on the disposal or abandonment of an intangible asset is debited or credited to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and, for any sale proceeds greater than £10,000, the Capital Receipts Reserve.

### Investment Properties

Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if they are used in any way for the delivery of services.

Investment properties are measured initially at cost and subsequently at fair value based on the amount at which the asset could be exchanged between knowledgeable parties at arm's-length. Properties are not depreciated and are revalued annually according to market conditions at the year-end. Gains and losses on revaluation are debited/credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Rental income received in relation to investment properties is credited to the Financing and Investment Income and Expenditure line and results in a gain for the General Fund Balance. However, revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance and are reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and, for any sale proceeds greater than £10,000, the Capital Receipts Reserve.

### Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases.

Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

- The Council as Lessee
  - o Finance leases

Property, plant and equipment held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Contingent rents are charged as expenses in the periods in which they are incurred.

Lease payments are apportioned between:

- a charge for the acquisition of the interest in the property, plant and equipment, applied to write down the lease liability, and
- a finance charge which is debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

Property, plant and equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life (where ownership of the asset does not transfer to the Council at the end of the lease period.)

The Council is not required to raise council tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore substituted by a revenue contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

In practice the Council has two categories of finance leases in primary rental for industrial units and secondary leases for certain items of equipment.

o Operating leases.

Rentals paid under operating leases are debited to the Comprehensive Income and Expenditure Statement as an expense of the services benefitting from the use of the leased property, plant or equipment. Charges are made on a straightline basis over the life of the lease.

- The Council as Lessor
  - Finance Leases

Where the Council grants a finance lease over a property, the relevant asset is written out of the Balance Sheet as a disposal. At the commencement of the lease the carrying amount of the asset in the Balance Sheet is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. A gain, representing the Council's net investment in the lease, is credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal, matched by a lease (long-term) debtor in the Balance Sheet.

Lease rentals receivable are apportioned between:

- a charge for the acquisition of the interest in the property applied to write down the lease debtor, and
- finance income which is credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

The gain credited to the Comprehensive Income and Expenditure Statement on disposal is not permitted by statute to increase the General Fund Balance and is required to be treated as a capital receipt. Where the amount due in relation to the lease asset is to be settled by the payment of rentals in future financial years, this is posted out of the General Fund Balance to the Deferred Capital Receipts Reserve in the Movement in Reserves Statement. When the future rentals are received, the element for this capital receipt for the disposal of the asset is used to write down the lease debtor. At this point the deferred capital receipts are transferred to the Capital Receipts Reserve.

The written-off values of disposals are not a charge against council tax, as the cost of fixed assets is fully provided for under separate arrangements for capital financing. Amounts are therefore appropriated to the Capital Adjustment Account from the General Fund balance in the Movement in Reserves Statement.

#### o Operating Leases.

Where the Council grants an operating lease over a property the asset is retained in the Balance Sheet. Rental income is credited to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease.

#### > Revenue Expenditure funded from Capital under Statute

Revenue expenditure funded from capital under statute represents expenditure that may be capitalised under statutory provisions but does not result in the creation of property, plant and equipment. Items incurred during the year have been written off as expenditure to the relevant service revenue account in the year. Where it has been determined to meet the cost of the item from existing capital resources or by borrowing, amounts charged are reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account.

#### **Current Value Measurement (IFRS 13)**

Previously, all assets and liabilities were valued under the principle of "fair value" which was defined as "the amount for which an asset could be exchanged or liability settled between knowledgeable, willing parties in an arm's length transaction".

Although "fair value" remains as the approach to valuation for a number of assets and liabilities, in respect of Operational Assets IFRS 13 introduces "current value". This means such assets have to be measured in a way that recognises their "service potential".

#### Accounting Policies in respect of Current Assets

#### Inventories

The Council has a number of inventories but none either individually or in aggregate are material to the accounts. However, the valuation approach in respect of the main inventory types (Fuel and Stock for Sale) is First In First Out.

#### Contingent Assets

A contingent asset arises where an event has taken place that gives the Council a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council.

Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts.

#### Provisions and Contingent Liabilities

Provisions

Provisions are made where an event has taken place that gives the Council a legal or constructive obligation that probably requires a financial settlement and a reliable estimate of the obligation can be made. Provisions are debited to the Comprehensive Income and Expenditure Statement and are measured at the best estimate of the expenditure that is likely to be required. When payments are made they are charged to the provision.

Contingent Liabilities

A contingent liability arises from an event which is too uncertain or the amount of the obligation cannot be reliably estimated. The liability is disclosed as a contingent liability within the notes to the accounts. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

#### Accounting Policies in respect of Employee Benefits

#### > Benefits Payable during Employment

Short-term employee benefits (those that fall due wholly within 12 months of the year-end), such as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits (e.g. cars) for current employees, are recognised as an expense in the year in which employees provide services to the Council.

An accrual is made against services in the Comprehensive Income and Expenditure Statement for the cost of holiday entitlements and other forms of leave earned by employees but not taken before the year-end and which employees can carry forward into the next financial year. The accrual is made at the wage and salary rates applicable in the following accounting year, being the period in which the employee takes the benefit. Any accrual made is required under statute to be reversed out of the General Fund Balance by a credit to the Accumulating Compensated Absences Adjustment Account in the Movement in Reserves Statement. Thus there is no impact on the council tax.

#### > Termination Benefits

Termination benefits are amounts payable as a result of a decision by the Council to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy.

Termination benefits are charged to the appropriate service line in the Comprehensive Income and Expenditure Account when the Council can demonstrate that it is committed to either terminating the employment of an officer or has made an offer of voluntary redundancy even if the officer has not left the Council by 31 March.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for

pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

#### Post-Employment Benefits (Pensions)

Employees of the Council are members of the Local Government Pensions Scheme (LGPS), administered by Cambridgeshire County Council. This scheme provides defined benefits to members (retirement lump sums and pensions), earned as employees work for the Council.

- The liabilities of the LGPS attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc., and projections of projected earnings for current employees.
- Liabilities are discounted to their value at current prices, using an appropriate discount rate (based on the indicative rate of return on high quality corporate bonds as identified by the actuary).
- The assets of the Cambridgeshire County Council Pension Fund attributable to the Council are included in the Balance Sheet at their fair value:
  - o quoted securities current bid price
  - unquoted securities professional estimate
  - unitised securities current bid price
  - property market value
- The change in the net pensions liability is analysed into seven components:
  - current service cost the increase in liabilities as a result of years of service earned this year – debited in the Comprehensive Income and Expenditure Statement to the services for which the employees worked.
  - past service cost the increase in liabilities arising from current year decisions whose effect relates to years of service earned in earlier years – debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs.
  - **net interest on the net defined liability**, i.e. net interest expense for the authority the change during the period in the net defined benefit liability that arises from the passage of time charged to the Financing and Investment Income and Expenditure Statement. This is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period, to the net defined benefit liability at the beginning of the period taking into account any changes in the net defined benefit liability during the period as a result of contribution and benefit payments.
  - **the return on plan assets** excluding amounts charged in net interest on the net defined benefit liability. This is charged to the Pensions Reserve as Other Comprehensive Income and Expenditure.
  - actuarial gains and losses changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – debited to the Pensions Reserve.
  - contributions paid to the Cambridgeshire Pension Fund cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

Statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the pension fund or directly to pensioners in the year, rather than the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, there are appropriations to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and any such amounts payable but unpaid at the year-end. The balance (currently negative) that arises on the Pensions Reserve thereby measures the beneficial impact on the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits that are earned by employees.

#### Discretionary Benefits

The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff are accrued in the year of the decision to make the award and accounted for using the same policies as are applied to the Local Government Pension Scheme.

#### Accounting Policies in respect of Financial Instruments

#### Financial Assets

The main financial assets attributable to the Council are:

• Loans and receivables

Financial assets that are applicable to the Council are loans and receivables which are assets with a fixed or determinable payment but not quoted in an active market (e.g. trade debtors, fixed term investments). Loans and receivables are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value and carried at their amortised cost. The Council has the following loans and receivables:

Debtors

Debtors are carried at original invoice amount less an estimate made for doubtful receivables based on a review of all outstanding amounts at the year-end, taking into account the nature, value and age of debts and historic losses for similar groups of assets. Bad debts are written off when they are identified.

Debtors falling due after more than one year are classified as long-term debtors, which includes housing improvement loans and housing advances. The charge for these services is to the Housing Services line in the Net Cost of Services in the Comprehensive Income and Expenditure Statement.

• Cash and equivalents

Cash and equivalents comprise cash in hand and current balances with banks and similar institutions, which are readily convertible to known amounts of cash. Due to their nature and short-term maturity, the fair values for debtors and cash and equivalents are estimated using their carrying values.

Investments

The Council has both long and short-term investments with various financial institutions. Investments are carried at their amortised cost. The fair value of investments is determined by discounting the future cash flows using a relevant market rate of interest comparable to the rate for the same investment from a comparable institution, available at the Balance Sheet date.

The Council has made loans for home improvement which are interest-free (soft loans). When these soft loans are made, a loss is recorded in the Housing Services line in the Net Cost of Services in the Comprehensive Income and Expenditure Statement for the present value of the interest that will be foregone over the life of the instrument, resulting in a lower amortised cost than the outstanding principal. Statutory provisions require that the impact of soft loans in the Comprehensive Income and Expenditure Statement is managed by a transfer to the Financial Instruments Adjustment Account. It is included in the 'Adjustment between accounting basis and funding basis under regulation' line in the Movement in Reserves Statement.

#### > Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and initially measured at fair value and carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised. The Council has the following liabilities:

Creditors

Creditors are carried at their original invoice amount.

Bank overdrafts

Bank overdrafts comprise amounts owed to banks and similar institutions and are repayable on demand.

Due to their nature and short-term maturity, the fair values for creditors and bank overdrafts are estimated using their carrying values.

Short-term borrowing

Loans of less than 1 year and carried at amortised cost.

Long-term loan

Loans with the Public Works Loans Board are carried at their amortised cost but with the fair value disclosed as a note.

# Note 2. Accounting Standards that have been issued but have not yet been adopted

The following are the accounting policies that have been issued but as yet have not been adopted by the Council as at the balance sheet date:

The Code of Practice on Local Authority Accounting in the United Kingdom 2016/17 (the Code) has introduced several changes in accounting policies which will be required from 1 April 2016.

- Amendments to IAS 19 *Employee Benefits* (Defined Benefit Plans: Employee Contributions)
- Annual Improvements to IFRSs 2010 2012 Cycle
- Amendment to IFRS 11 *Joint Arrangements* (Accounting for Acquisitions of Interests in Joint Operations)
- Amendment to IAS 16 *Property, Plant and Equipment* and IAS 38 *Intangible Assets* (Clarification of Acceptable

Methods of Depreciation and Amortisation)

- Annual Improvements to IFRSs 2012 2014 Cycle
- Amendment to IAS 1 Presentation of Financial Statements (Disclosure Initiative)
- The changes to the format of the Comprehensive Income and Expenditure Statement, the Movement in Reserves

Statement and the introduction of the new Expenditure and Funding Analysis

• The changes to the format of the Pension Fund Account and the Net Assets Statement.

It is not anticipated that the above amendments will have a material impact on the information provided in the financial statements, i.e. there is unlikely to be a change to the reported information in the reported net cost of services or the Surplus or Deficit on the Provision of Services. However, in the 2016/17 year the comparator 2015/16 Comprehensive Income and Expenditure Statement and the Movement in Reserves Statement must reflect the new formats and reporting requirements as a result of the CIPFA/LAASAC (Chartered Institute of Public Finance and Accountancy/Local Authority Scotland Accounts Advisory Committee) Telling the Story review of the presentation of local authority financial statements.

# Note 3. Critical Judgements in Applying Accounting Policies

In applying the accounting policies set out in Note 1, the Council has had to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts are:

 In light of the current financial environment or continuing austerity across the public sector, the Council has adopted the Zero Based Budgeting (ZBB) methodology to deliver savings and efficiencies, of which £2.2m was achieved in the 2016/17 budget approved in February 2016. The Medium Term Financial Strategy (MTFS), which was also approved in February 2016, removed the reliance on NHB by 2020/21. At present further ZBB reviews are ongoing and these may impact on service provision.

However, the Council has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the Council might be impaired as a result of a need to close facilities and reduce levels of service provision.

- In line with the Code of Practice on local authority accounting in the United Kingdom 2015/16, based on International Financial Reporting Standards, the Council has not charged depreciation on land, investment properties, community assets, assets held for sale and assets under construction. For all these assets, the total value for 2015/16 for land is £13.030m and Buildings (NBV) is £17.222m (2014/15; land is £13.427m and Buildings (NBV) is £16.367m).
- The Council has taken professional advice from the Pension Fund's actuary, Hymans Robertson LLP, to determine the overall net liability of the fund which is £68.638m for 2014/15; this has decreased by £11.446m since 2014/15. However:
  - This does not adversely affect the financial position of the Council as the actuarial valuation is based on a number of assumptions about the future, as shown in Note 39.
  - The revenue impact of the deficit is formally reviewed by the actuary on a triennial basis who determines revised employer contributions for the forthcoming 3-year period. Further, fluctuations in pension assets and liabilities occur due to movements in market investments.
- The participants in the Council's Non Domestic Rates Collection Fund share the costs of any successful appeals to reduce the rateable value of a property. This includes the cost of any outstanding appeals which may be backdated prior to 1 April 2014.

To estimate the provision for outstanding appeals, the Council has reviewed the outstanding appeals as at 31 March 2016. An estimated provision of £8.331m has been included in the Collection Fund in respect of successful appeals costs. Of the total estimated provision, £4.857m is for backdated costs prior 1 April 2015, £2.762m for costs attributable to 2015/16 and £0.712m in relation to appeals that are yet to be submitted. The Council's share of any such Collection Fund costs is 40% or £3.333m of the total provision and this is included in the General Fund balance.

### Note 4. Assumptions Made About the Future and Other Major Sources of Estimation Uncertainty

The Statement of Accounts contains estimated figures that are based on assumptions made by the Council about the future or are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Council's Balance Sheet at 31 March 2016 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
Property	All Property is reviewed on a 3 year rolling basis. Where an asset has not been specifically reviewed a "table-top" analytical review is undertaken to determine if the principle valuation indexes show a material change in the current assets valuation. In addition, an annual impairment review is undertaken to determine if any of the Council's assets have been impaired.	75% of the Council's assets are valued at fair value, so the impact of changes in market is significant. If there was a 1% fall in market value, it is estimated that the value of the Council's property assets would reduce by £0.468m.
Plant and Equipment	Plant and Equipment are valued on an historic cost basis.	There will not be any changes to this valuation due to market conditions because the valuation approach reflects costs at acquisition or similar situations.
Investment Properties	Investment Properties are valued on an annual basis and are valued at fair value.	It is estimated that a 1% fall in market value would reduce the value of the Council's investment properties by £0.227m.
Pensions Liability	Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of actuaries is engaged to provide the Council with expert advice about the assumptions to be applied.	<ul> <li>The effects on the net pensions liability of changes in individual assumptions, as provided by the actuary, can be measured. For instance:</li> <li>A 0.5% decrease in the discount rate assumption would result in an increase in the pension liability of 11% or £19.061m.</li> <li>A 1 year increase in life expectancy would result in an increase in pension liability of 3% or £5.376m.</li> <li>A 0.5% increase in the salary increase rate would result in an increase in pension liability of 3% or £5.831m.</li> <li>A 0.5% increase in the pension increase rate would result in an increase in pension liability of 3% or £5.831m.</li> </ul>
Sundry Debt Arrears	The Bad Debt Provision (BDP), also known as Debtor Impairment, calculation is based on the current aged debt profile, past payment behaviour and past write off activity.	Each debt type has an independent BDP rate determined by previous debt activity. If only Sundry Debtor debt is considered, increasing the BDP by 10% would have an additional £41,993 impact on revenue. However, to achieve such an increase in the BDP, the actual debt

	At 31 <sup>st</sup> March 2016 the Council has a net debtors balance of £10.853m	would have to increase by £125,091.
Sundry Creditors (Housing Benefits)	During the year the Council pays Housing Benefits to local residents who are entitled to receive it; these payments are reimbursed by Central Government subsidy. The Subsidy reimbursement relates to amounts paid on or before 28 <sup>th</sup> March, however, accruals have been made to reflect the period that the payments actually cover. The Housing Benefit payments made by the Council are on one of the two following bases: i. 4-week in arrears, or ii. 2-weeks in arrears/2- weeks in advance.	The amount of Housing Benefit in payment at any given time is dependent on the number of claims made at that time, which is itself affected by both local and national economic conditions. Consequently it is difficult to provide a meaningful sensitivity analysis.
Provision – Rateable Value Appeals	Appeals by non-domestic ratepayers for a reduction in the rateable value of their premises are outstanding. Appeals are determined by Valuation Office and are not within the Council's control. However, expert independent advice has been sought in arriving at an estimated provision.	The provision is based upon the latest list of outstanding rating list proposals provided by the Valuation Office Agency. It is an estimate based on changes in comparable hereditaments, market trends and other valuation issues, including the potential for certain proposals to be withdrawn. The estimate includes appeals and proposals in respect of live and historic Rating List entries. It does not include any allowance or adjustment for the effects of transition or for changes in liability. The estimated provision is made up of the estimated outcome of appeals calculated by a weighted average of the historic outcomes. It should be noted that the impact on the Council of appeals, as well as other NDR, is limited by Safety Net calculation (the calculation of which is limited by regulation). A 10% variation in the estimated provision would be £0.539m for the Collection Fund of which £0.216m which would be attributable to the General Fund.

# Note 5. Material Items of Income and Expenditure

The primary purpose of this note is to disclose those material items of income and expenditure that are not part of the ordinary course of business or events of the Council (i.e. extraordinary). During 2015/16 no such items of income or expenditure were incurred (2014/15; nil.)

### Note 6. Events after the Balance Sheet Date

The Annual Financial Report, incorporating the Statement of Accounts, was authorised for issue by the Head of Resources on 31<sup>st</sup> May 2016.

With regard to 2015/16:

#### • Adjusting Events

The financial statements and notes have not been adjusted for any such material events which took place after the 31 March 2016.

#### • Non-Adjusting Events

Following the majority vote to end the UK's membership of the European Union (EU) in the EU Referendum held on 23 June 2016 there is a heightened level of volatility in the financial markets and increased macroeconomic uncertainty in the UK. All three major rating agencies (S&P, Fitch and Moody's) took action on the UK Sovereign credit rating. The Council's Treasury Management Strategy, ensures that the Council's investments are well protected against market fluctuations in the short to medium term. The Council has concentrated its investing on short-term instruments, with the majority of the surplus funds available to be withdrawn on the day. There is likely to be an impact on the Council's investment property valuations if confidence in the wider UK property market falls; and the valuation of the Council's £68.638m defined benefit pension obligations may also be affected. It is too early to estimate the quantum of any impact on the financial statements, and there is likely to be significant ongoing uncertainty for a number of months while the UK renegotiates its relationships with the EU and other nations. For the purposes of these financial statements, the Referendum is considered a non-adjusting event. There have been no other events occurring after the reporting date that would have a material impact on these financial statements

# Note 7. Adjustments between Accounting Basis and Funding Basis under Regulations

This note details the adjustments that are made to the total Comprehensive Income and Expenditure Statement recognised by the Council in the year in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the Council to meet future capital and revenue expenditure.

The following sets out a description of the reserves that the adjustments are made against.

#### **General Fund Balance**

The General Fund is the statutory fund into which all the receipts of a council are required to be paid and out of which all liabilities of the council are to be met, except to the extent that statutory rules might provide otherwise. These rules can also specify the financial year in which liabilities and payments should impact on the General Fund Balance, which is not necessarily in accordance with proper accounting practice. The General Fund Balance

therefore summarises the resources that the Council is statutorily empowered to spend on its services or on capital investment (or the deficit of resources that the Council is required to recover) at the end of the financial year.

#### **Capital Receipts Reserve**

The Capital Receipts Reserve holds the proceeds from the disposal of land or other assets, which are restricted by statute from being used other than to fund new capital expenditure or to be set aside to finance historical capital expenditure. The balance on the reserve shows the resources that have yet to be applied for these purposes at the year-end.

#### Capital Grants Unapplied

The Capital Grants Unapplied Account (Reserve) holds the grants and contributions received towards capital projects for which the Council has met the conditions that would otherwise require repayment of the monies but which have yet to be applied to meet expenditure. The balance is restricted by grant terms as to the capital expenditure against which it can be applied and/or the financial year in which this can take place.

### 2015/16

		Useab	e Reserves	
	General Fund balance £000	Capital receipts reserve £000	Capital Grants Unapplied £000	Movement in Unusable Reserves £000
Adjustments involving the Capital Adjustment Account: Reversal of items debited or credited to the Comprehensive Income and Expenditure Statement:				
Charges for depreciation and impairment of non-current assets Amortisation of intangible fixed assets Fair value of investment properties Net Revenue expenditure funded from capital under statute	(3,762) (363) 439 (2,398) (4,074)			3,762 363 (439) 2,398
Net carrying amount of non-current assets sold Revaluation Gains/Losses on non-current assets charge to the Comprehensive Income and Expenditure Statement Capital grants and contributions credited to the Comprehensive	(1,674) (637) 514			1,674 637 (514)
Income and Expenditure Statement: Insertion of items not debited or credited to the Comprehensive Income and Expenditure Statement:				()
Minimum revenue provision for capital funding	1,530			(1,530)
Adjustments involving the Capital Receipts Reserve: Use of Capital Receipts Reserve to fund capital expenditure Proceeds of sale of non-current assets	1,789			(1,789)
Repayment of Ioan Contribution from the Capital Receipts Reserve to finance the payments to the Government capital receipts pool.	(1)			1
Adjustments involving the Financial Instruments Adjustment Account: Amount by which finance costs charged to the Comprehensive Income and Expenditure Statement are different from finance costs chargeable in the year in accordance with statutory requirements	(15)			15
Adjustments involving the Pensions Reserve: Reversal of items relating to retirement benefits debited or credited to the Comprehensive Income and Expenditure Statement (see Note 5 of Pension Fund) Employer's pensions contributions and direct payments to pensioners payable in the year	(6,900) 4,030			6,900 (4,030)
Adjustments involving the Collection Fund Adjustment Account: Amount by which council tax income credited to the Comprehensive Income and Expenditure Statement is different from council tax income calculated for the year in accordance with statutory requirements	2,851			(2,851)
Adjustments involving the Capital Grants Unapplied Account				
Capital grants and contributions unapplied credited to the Comprehensive Income and Expenditure Account	2,072		(582)	(1,490)

#### **Capital Commitments**

As at 31 March 2016 the Council was contractually committed to capital works valued at approximately £2.840m (31 March 2015; £2.546m).

The schemes are:

		£m
Development:	Alconbury Weald -	
	Building Foundations For Growth	1.984
Development:	Housing Grants	0.392
Operations:	Vehicle Replacements	0.346
	Salix Energy Projects	0.109
Customer Services:	Home-Link Software	<u>0.009</u>
Total		<u>2.840</u>

Note;

The Council is committed to spending £1.984m on the Alconbury Weald Enterprise Campus. This is the balance of the Building Foundations for Growth capital grant funding.

#### **Revaluations**

• Land and buildings

These assets are held at current value and were revalued as at 1 April 2014 onwards. The council operates a three year rolling programme of revaluations although where there has been significant capital expenditure on properties a revaluation will take place.

The valuations were carried out externally and independently by Mr MJ Beardall BLE (Hons) MRICS (Member, Royal Institution of Chartered Surveyors) of Barker Storey Matthews. Mr Beardall has relevant experience in valuing these types of property and is a member of the Valuer Registration Scheme, and meets the requirements of the Red Book with regard to qualifications of the valuer, knowledge and skills, and independence and objectivity.

The specific assumptions applied in estimating current values in respect of Land and Buildings by the Council's valuer were as follows:

- The updated valuations have been prepared in accordance with the publication Royal Institution of Chartered Surveyors (RICS) Valuation Professional Standards. With specific reference made to UK Appendix 5 Valuation of Local Authority Assets.
- The assets have been valued in accordance with the Code of Practice on Local Authority Accounting, published by CIPFA.
- The current value has been calculated by reference to comparable market evidence, including market evidence from the local geographical area. Adjustments have been made to factor in any unusual or onerous obligations, such as repairing obligations.
- Where market evidence is unavailable due to the nature of the property; a depreciated replacement cost (DRC) method has been used. The DRC approach requires an estimate of the value of the land in its exiting use together with the current gross replacement costs of the building and its external works. Adjustments have been made to reflect the age, condition, economic, functional and environmental obsolescence and other locational factors. The build cost for DRC purposes has been calculated using the Building Cost Information Service quarterly review of building prices and is representative for an instant build approach.
- No adjustments have taken place for changes in value which may have taken place since the valuation date or for prospects of future growth.
- Useful economic life is based on how long the asset will deliver economic benefits for any purpose. This is based on the type of construction, the current age, and the condition of the asset.
- It has been assumed that there are no unusual or especially onerous restrictions, encumbrances or outgoings and that a good title can be shown. Also that the valuation would not be affected, by any matter that would be revealed by a local search.
- Assets falling outside of specific revaluation in the current financial year have been considered and it is the valuer's belief that no other assets require an impairment review.
- Components have been considered in relation to LAAP 86 Componentisation of Property, Plant and Equipment, and the Council's componentisation policy.

- The properties have been assumed to be in reasonable tenantable condition, with no particular works being required that would prejudice a sale or the current value of the property, the properties have been assumed to be in a good state of repair.
- Building surveys have not been carried out, nor have inaccessible parts of buildings been inspected.
- No investigation has been made to determine whether or not any deleterious or hazardous material has been used in the construction of the properties or has since been incorporated. It has therefore been assumed in valuing the properties that such investigations would not disclose the presence of any such materials.
- We have assumed no contamination to be affecting the properties or neighbouring properties, which would affect our opinion on value.
- The properties are assumed to be in areas not prone to flooding.

Vehicles, Plant, Equipment and Infrastructure assets are valued at historic cost, as at the date of acquisition and subsequent capital enhancement expenditure less depreciation. Community Assets, and Assets Under Construction are valued at historic cost at the date of acquisition and subsequent capital enhancement. Consequently there is no ongoing revaluation review for these assets.

Assets Held For Sale are valued at lower of carrying value and fair value less cost of sale.

Revaluation Profile	Other Land and Buildings	Total
	£000	£000
Valued at Fair Value as at:		
31 March 2016	17,034	17,034
31 March 2015	9,264	9,264
31 March 2014	20,458	20,458
Total Cost of Valuation	46,756	46,756

### Note 13. Investment Property

The following items of income and expense have been accounted for in the Comprehensive Income and Expenditure Statement as financing and investment income and expenditure.

2014/15		2015/16
£000		£000
(1,869) 364	Rental income from investment property Direct operating expenses arising from	(1,863)
	_ investment property	255
(1,505)		(1,608)
(1,259)	Revaluation Adjustment	(439)
(2,764)	Net (gain)/loss	(2,047)

The movement in investment properties balances during the year are shown below.

Annual Financial Report (including the Statement of Accounts as at 31 March 2016)

2014/15 £000		2015/16 £000
19,615	Balance at start of the year	20,874
0	Additions in year	1,362
1,259	Net gain/(loss) for fair value	439
20,874	Balance at end of the year	22,675

#### Restrictions

There are no restrictions on the Council's ability to realise the value inherent in the investment properties or the Council's right to receive the income and proceeds of disposal.

#### Gains or Losses from changes in Fair Value

Gains or losses from Changes in the fair value of investment property are recognised in the Surplus or Deficit on the Provision of Services - Financing and Investment Income and Expenditure line.

#### **Highest and Best Use**

In estimating the fair value of the authority's investment properties, the highest and best use of the properties is their current use.

#### Valuation Techniques

There has been no change in valuation techniques used during the year for valuing investment properties. The fair value is measured on an annual basis as at 31st March. All valuations are carried out by a qualified valuer from Barker Storey Matthews, in accordance with methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors.

#### Fair Value Hierarchy

In order to increase the consistency and comparability in fair value measurements, the method by which fair values are assessed are separated into three levels. The three levels are based on the inputs to the valuation techniques that are used to measure fair value.

#### Level 1 Inputs

Quoted prices in active markets for identical assets or liabilities that the authority can access at the measurement date.

#### Level 2 Inputs

Inputs (other than quoted prices within level 1) that are observable for the asset or liability, either directly or indirectly.

#### Level 3 Inputs

Unobservable inputs for the asset or liability.

Details of how the Fair Value Hierarchy inputs apply to the Council's Investment Properties are demonstrated in the table below:

Annual Financial Report (including the Statement of Accounts as at 31 March 2016)

2015/16 Fair V	2015/16 Fair Value Inputs						
	Level 1	Level 2	Level 3	Total			
Asset Type	Quoted	Other	Significant				
	Prices	significant	unobservable				
		observable	inputs

Commercial	0	10,189	0	10,189			
Total	0	22,675	0	22,675			

2014/15 Fair \	2014/15 Fair Value Inputs					
	Level 1	Level 2	Level 3	Total		
Asset Type	Quoted	Other	Significant			
	Prices	significant	unobservable			
		observable	inputs			
		inputs				
	£000	£000	£000	£000		
Retail	0	3,340	0	3,340		
Office	0	9,000	0	9,000		
Commercial	0	8,534	0	8,534		
Total	0	20,874	0	20,874		

#### Transfers between levels of the Fair value Hierarchy

There were no transfers between levels during the year.

#### Valuation Techniques to Determine Level 2 Fair Values

#### Significant Observable Inputs Level 2

The fair value for investment properties is based on the market approach, using current market conditions and sale prices for similar assets in the local authority area. Market conditions are such that similar properties are actively purchased and sold and the level of observable inputs are significant.

#### Note 14. Intangible Assets

The Council accounts for its software as intangible assets, where the software is not an integral part of a particular IT system and accounted for as part of the hardware item of Property, Plant and Equipment. The intangible assets include both purchased licenses and internally generated software.

All software is given a finite useful life, based on assessments of the period that the software is expected to be of use to the Council. The useful lives assigned to software are generally 5 years.

The carrying amount of intangible assets is amortised on a straight-line basis. Amortisation of £0.363m was charged to revenue in 2015/16, this was either charged to the Information Management Division and then absorbed as an overhead across all the service headings in the Net Expenditure of Services or directly to services.

#### Capital Commitments

As at 31 March 2016 the Council was committed contractually to capital works of £9,000, (31 March 2015; £nil).

The movement on intangible asset balances during the year is as follows:

2014/15	·	2015/16
£000		£000
	Balance at start of the year:	
3,655	Gross carrying amounts	3,575
(1,873)	Accumulated amortisation	(2,123)
1,782	Net carrying amount at the start of the year	1,452
157	Additions	5
(423)	Amortisation for the period	(363)
(237)	Disposals or retirements	(291)
173	Amortisation on Disposal	263
1,452	Net carrying amount at the end of the year	1,066
3,575	Gross carrying amounts	3,289
(2,123)	Accumulated amortisation	(2,223)
1,452	Net carrying amount at end of the year	1,066

# Note 15. Financial Instruments

0	0	Interest income	(85)	(160)
454	446	Net gain/(loss) for the year	(85)	(160)

#### Fair value of assets and liabilities carried at amortised cost

Financial assets classified as available for sale are carried in the Balance Sheet at fair value taken from the market price. In January 2016 the Council invested in the CCLA Property Fund. Pooled funds such as these are classed as an available for sale asset as it is in the form of shares which are actively traded and have a market price.

Financial liabilities and financial assets classified as loans and receivables are recorded on the Balance Sheet at their amortised cost. Their fair value has been assessed by calculating the present value of the cash flows that will take place over the remaining term of the instruments, using spreadsheets provided by our advisors or by using the following assumptions:

- An estimated interest rate based on 10 year PWLB rates with a range of 2.76% to 5.15%, depending on the relevant year, has been used to calculate the fair value of private sector housing improvement loans.
- No early repayment or impairment is recognised.
- Where an instrument will mature in the next 12 months the carrying amount is assumed to approximate to fair value.
- The fair value of debtors is taken to be the invoiced or billed amount.

IFRS 13 introduces a three level hierarchy for the inputs into a fair value calculation:

- Level 1 quoted prices in active markets for identical assets or liabilities, e.g. bond prices
- Level 2 inputs other than quoted prices that are observable for the asset of liability, e.g. interest rates or yields for similar instruments
- Level 3 fair value is determined using unobservable inputs, e.g. non-market data such as cash flow forecasts or estimated creditworthiness

Creditors	(7,772)	(5,507)	
Bank Balance	0	0	
	(19,256)	(19,086)	

The Financial Liabilities are shown below:

The fair value of the liabilities is higher than the carrying amount because the portfolio of loans includes fixed rate loans where the interest rate payable is lower than the current rates available for similar loans at the Balance Sheet date.

The net fair value of financial assets is higher than the carrying amount because the portfolio includes investments where the interest rate receivable is higher than the rates available for similar investments at the Balance Sheet date.

Short term debtors and creditors are carried at cost as this is a fair approximation of their value.

#### Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The Account is credited with the amounts set aside by the Council as finance for the costs of acquisition, construction and enhancement.

The Account contains accumulated gains and losses on Investment Properties and gains recognised on donated assets that have yet to be consumed by the Council. The Account also contains revaluation gains accumulated on Property, Plant and Equipment and Investment Properties before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains and losses. Note 7 provides details of the source of all the transactions posted to the Account, apart from those involving the Revaluation Reserve.

2014	/15	Capital Adjustment Account	201	5/16
£000 £000			£000	£000

	1,242	Total movements		624
	(39,220)	Balance at 31 March		(38,596)

#### Revaluation Reserve

The Revaluation Reserve contains the gains made by the Council arising from increases in the value of its Property, Plant and Equipment. It is identified at individual asset level. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost. If no surplus remains on a particular asset's account any further impairment must be charged to the surplus/deficit on the provision of services within the Comprehensive Income and Expenditure Statement;
- used in the provision of services and the gains are consumed through depreciation; or
- disposed of and the gains are realised.

The Reserve contains only revaluation gains accumulated since 1 April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

2014/15 £000 Restated	Revaluation Reserve	2015/16 £000
(13,403)	Balance at 1 April	(13,680)
(928)	Upward revaluation of assets	(1,683)
126	Other adjustments for assets disposed of or transferred - written off to Capital Adjustments Account	590
(802)	(Surplus) or deficit in the revaluation of non-current assets	(1,093)
24	Downward revaluation or impairment of assets not charged to the surplus/deficit on the provision of services	72
501	Difference between fair value depreciation and historical cost depreciation - written off to Capital Adjustment Account	399
(13,680)	Balance at 31 March	(14,302)

Financial Instruments Adjustment Account

The Financial Instruments Adjustment Account absorbs the differences between accounting for the fair value of loans given to individuals and organisations, and the actual income credited to the General Fund.

2014/15 £000	Financial Instruments Adjustment Account	2015/16 £000
190	Balance at 1 April	212
22	Amount by which finance costs charged to the Comprehensive Income and Expenditure Statement are different from finance costs chargeable in the year in accordance with statutory requirements	15
212	Balance at 31 March	227

#### Available for Sale Reserve

Available for sale assets are carried at their fair value. Movements in fair value are posted to a revaluation reserve (the Available for Sale Financial Instruments Reserve) and taken to the Surplus or Deficit on the Revaluation of Available for Sale Financial Assets line in the Comprehensive Income and Expenditure Statement.

2014/15 £000	Available for Sale Reserve	2015/16 £000
0	Balance at 1 April	0
0	Downward revaluation of investments not charged to the Surplus/Deficit on the Provision of Services	182
0	Balance at 31 March	182

#### Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Council accounts for post-employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs.

However, statutory arrangements require benefits earned to be financed as the Council makes employer's contributions to pension funds or eventually pay any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Council has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid. Further information is found in Note 35 in respect of Defined Benefit Pension Scheme.

2014/15 £000	Pensions Reserve	2015/16 £000
61,464	Balance at 1 April	80,084
15,955	Actuarial (gains) or losses on pensions assets and liabilities	(14,991)
6,493	Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement	6,900
(3,828)	Employer's pensions contributions and direct payments to pensioners payable in the year	(4,030)
80,084	Balance at 31 March	67,963

#### Collection Fund Adjustment Account

The Collection Fund Adjustment Account identifies the element of the Collection Fund balance that is due to this Council. It is included in the Comprehensive Income and Expenditure Statement as it relates to 2015/16 and previous years although it is only actually transferred from the Collection Fund in line with regulations.

2014/15 £000	Collection Fund Adjustment Account	2015/16 £000
2,767	Balance at 1 April	5,162
2,395	Amount by which council tax and non-domestic rates income credited to the Comprehensive Income and Expenditure Statement is different from council tax and non-domestic income calculated for the year in accordance with statutory requirements	(2,850)
5,162	Balance at 31 March	2,312

#### Accumulating Compensated Absences Adjustment Account

The Accumulating Compensated Absences Adjustment Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year i.e. annual leave entitlement and accrued flexitime carried forward at 31 March. Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the Accumulating Compensated Absences Adjustment Account.

The 2015/16 balance is considerably lower than previous years because of changes to the Council's leave arrangements policy and flexible working scheme. There is now no automatic carry forward of untaken annual leave and flexible working balances are limited to 14.8 hours.

2014/15 £000	Accumulating Compensated Absences Adjustment Account	2015/16 £000
311	Balance at 1 April	210
(311)	Settlement or cancellation of accrual made at the end of the preceding year	(210)
210	Amounts accrued at the end of the current year	46
210	Balance at 31 March	46

# Note 21. Operating Activities

The interest items of the cash flows for operating activities are as follows:

2014/15 £000		2015/16 £000
(87)	Interest Received	(107)
454	Interest Paid	461

# Note 22. Investing Activities

2014/15 £000 Restated		2015/16 £000
(8,410)	Purchase of property, plant and equipment, investment property and intangible assets	(5,169)
(47)	Other payments for investing activities	(2,302)
1,087	Proceeds from the sale of property, plant and equipment, investment property and intangible assets	1,789
(22)	Proceeds from short-term and long-term investments	(2,818)
8,744	Other receipts from investing activities	6,043
1,352	Net cash flows from investing activities	(2,457)

# Note 23. Financing Activities

2014/15		2015/16
£000		£000
123	Other receipts from financing activities	(103)
(166)	Movement on long-term borrowing	2,031
(6,000)	Movement on short-term borrowing	64
(6,043)	Net cash flows from financing activities	1,992

# Note 24. Amounts Reported for Resource Allocation Decisions

The analysis of income and expenditure by service on the face of the Comprehensive Income and Expenditure Statement is that specified by the Service Reporting Code of Practice, however, decisions about resource allocation are taken by the Council's Cabinet on the basis of budget reports analysed across services in a bespoke manner that best fits the Council's needs. These reports are prepared on a different basis from the basis used in the financial statements. In particular:

- No charges are made in relation to capital expenditure (whereas depreciation, revaluation and impairment losses in excess of the balance on the Revaluation Reserve and amortisations are charged to the services in the Comprehensive Income and Expenditure Statement);
- The cost of retirement benefits is based on cash flows (payment of employer's pension's contributions) rather than current service cost of benefits accrued in the year.

The following statements reconcile the revenue expenditure by service as reported to Members and Chief Officers, with that in the comprehensive income and expenditure account. The analysis by service is reported to Members three times a year – budget (February), forecast outturn (the following February) and actual net expenditure (July).

The income and expenditure of the main services is as follows:

Annual Financial Report (including the Statement of Accounts as at 31 March 2016)

2015/16	Customer Services	Leisure & Health	Operations	Other Services	TOTAL
	£000	£000	£000	£000	£000

**Note:** The 2014/15 comparator figures have been restated. In 2015/16 the management structure of the Council changed to that reflected in the 2015/16 tables. 2014/15 was restated in order to allow a like for like comparator.

# Note 25. Trading Operations

From a local authority context, a trading operation is one where a Council is trading and taking operational risks and could, if the economic environment so dictated, expose the Council to a financial loss on the service provided.

2014/15 £000		2015/16 £000
	<b>Trading Operations included in the Net Cost of Service</b> <b>Car Parks</b> The Council collects car parking income from both its own off- street car parks and from the on-street car parking operations that it operates, as an agent, for the Highways Authority. The income is generated from a mix of parking fees and excess parking charges. The Council operates 22 chargeable off- street car parks across the district and 3 on-street car parking areas in Huntingdon, St. Ives, and St Neots.	
(2,125) 1,493 <b>(632)</b>	Gross Income Gross Expenditure (Surplus)/Deficit Leisure Services	(2,399) 1,639 <b>(760)</b>
(6,774) 8,647 <b>1,873</b>	The Council operates 5 leisure centres across the district, under the name One Leisure; namely Huntingdon, St. Ives, St Neots, Sawtry and Ramsey. The facilities provided vary across the district but include amongst others; Swimming Pools, Sports Halls, Astro-Turf, Athletics Track, Gymnasium, Spa facilities and Ten-Pin Bowling. Gross Income Gross Expenditure	(6,907) 8,414 <b>1,507</b>

	Printing	
	The Council operates a Document Processing Centre that produces a range of documents for both internal and external customers. All external work is undertaken on a marginal cost basis (i.e. excluding recharges) and on this basis external work has made a contribution to the net cost of the service. However, statutory reporting requires full cost.	
(71)	Gross Income	(82)
	Gross Expenditure	85
1_	(Surplus)/Deficit	3
	Grounds Maintenance	
	The Council's in-house Grounds Maintenance Team provides a wide range of services, primarily in respect of green spaces. However, the service also provides some services for external organisations, namely Luminus Housing Association and Cambridgeshire County Council.	
(233)	Gross Income	(121)
219		165
(14)	(Surplus)/Deficit	44
	Commercial Waste	
	The Council operates a waste collection service that is available to all businesses across the district. As this is a non-statutory service it is a chargeable activity.

# Note 26. Members' Allowances

The Authority paid the following amounts to members of the Council during the year:

2014/15 £000		2015/16 £000
374	Allowances	382
23	Expenses	17
397		399

# Note 27. Senior Officer Remuneration and staff over £50k 2015/16

The number of employees whose remuneration in the year was £50,000 or more is shown in the table below. It includes pay, redundancy payments and other employee benefits but not employer's pension contributions.

2014/15	£	-	£	2015/16
10	50,000	but less than	55,000	7
3	55,000	but less than	60,000	5
1	60,000	but less than	65,000	2
2	65,000	but less than	70,000	2
2	70,000	but less than	75,000	0
2	75,000	but less than	80,000	2
1	130,000	but less than	135,000	1
21				19

Included in the banding table above are those Senior Officers who are separately disclosed in the following Remuneration of Senior Employees table.

## **Remuneration of Senior Employees**

The remuneration of Senior Employees is shown in the table below.

2015/16 Post holder	Salary including allowances £	Election Fees (1) £	Salary including allowances and fees £	Total remuneration £	Employer pension contributions £	Remuneration including pension contributions £
Managing Director	126,202	6,278	132,480	132,480	22,250	154,730
Corporate Director (Services) (2)	77,310	360	77,670	77,670	13,706	91,376

## Key - 2014/15

- Note 1 The election fees do not include fees for General, European and County Council elections paid for by third parties.
- Note 2 The Corporate Director for Services, started at the Council on 1st September 2014. (annualised salary; excluding employer pension contributions is £77,000)
- Note 3 The Corporate Director for Delivery, started at the Council on 17th August 2014. (annualised salary; excluding employer pension contributions is £77,000)
- Note 4 The Assistant Director (Environment, Growth and Planning) post was created on 1 March 2013 and the post holder left the Council on the 10 June 2014.

(annualised salary; excluding employer pension contributions is £79,000)

Note 5 As of the 2nd June 2014, the RFO responsibility has passed to the newly appointed Head of Resources. (annualised salary; excluding employer pension contributions for the Head of Resources is £66,000)

# Note 28. External Audit Related Costs

These figures show the amounts included in the accounts which include any adjustments made for previous years.

2014/15 £000		2015/16 £000
79	External audit	53
18	Grant claim certification	18
2	National Fraud Initiative	0
(6)	Audit Commission rebate	0
93		71

# Note 29. Grant Income

The Council credited the following grants, contributions and donations to the Comprehensive Income and Expenditure Statement:

2014/15		2015/16
£000		£000
	Credited to taxation and non-specific	
	income	
4,563	Revenue support grant	3,183
3,358	New Homes Bonus	4,417
892	Other Non Ringfenced Grants	43
82	Council Tax Freeze Grant	83
79	Donated Assets	0
8,974	Total	7,726
	—	
	Credited to Services	
35,081	Rent allowances	35,183
786	Benefits administration	695
530	Improvement grants	0
356	Transportation Development	0
5,000	Alconbury Weald Development Grant	0
529	Shared Services Grant	0
870	Other	1,057
43,152	Total	36,935

The Council has received some grants that have yet to be recognised as income as they have conditions attached to them that may require the monies to be returned. The balances at the year-end are as follows:

2014/15 £000	Grants Receipts in Advance	2015/16 £000
	Government grants	
52	Mortgage Rescue Scheme	52
61	Preventing Repossessions	61
113	_	113

The Council has received some grants that have no conditions attached; they have been recognised as income but are held in the Capital Receipts Unapplied Account pending their use to fund the relevant Capital Scheme. The balances at the year-end are as follows:

2014/15 £000	Capital Grants Unapplied Account	2015/16 £000
210	Government grant for housing	210
1,985	Building Foundations for Growth	1,985
1,895	Community Infrastructure Levy	2,477
4,090		4,672

# Note 30. Related Parties

The Council must disclose in the accounts any material transactions with related parties. Related parties are bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently.

Central government has significant influence over the general operations of the Council, it is responsible for providing the statutory framework within which the Council operates, provides a significant amount of its funding in the form of grants and prescribes the terms of many of the transactions that the Council has with other parties e.g. Council tax bills.

Grants received from government departments are set out in the analysis in Note 24 on" Amounts Reported for Resource Allocation Decisions" and Note 29 on "Grant Income".

Members of the Council have direct control over the Council's financial and operating policies. The total of members' allowances paid in 2015/16 is shown in Note 26. Some Council members are also:

- 1. elected members of other Councils, including the County Council, Parish and Town Councils.
- 2. nominated representatives of Huntingdonshire County Council on various organisations.

The Council has a significant operational relationship with Cambridgeshire County Council. The Council is the administering authority for the Council's pension fund, and many of the Councils services work with County Council services on a day`-to-day basis e.g. the Council is the statutory waste collection authority whereas the County Council is the statutory waste disposal authority but each of the Councils has to pay the other in respect of certain types of waste. For 2015/16, the Council has paid:

- £7.402m to Cambridgeshire County Council (£3.328m for pension payments and £4.074m for services), and
- received £1.288m from the County Council
- (£7.472m paid to and £2.749m received from the County Council; 2014/15)

In respect of 2015/16:

- no officers have disclosed any significant interests.
- By 31<sup>st</sup> May 2016, of the 50 members who served the Council, 46 had returned a Related Party Transaction disclosure form.

Following a comprehensive review of relevant statutory and voluntary disclosures and other 'ad-hoc' information sources, the following councillors (as either an individual or family interest) have disclosed a related party; this is shown below.

Councillor	Organisation	Relationship with Organisation	Payments from Organisations 2015/16	Payments made by the Council 2015/16	Interest
			£	£	
Carter Curtis Fuller Shellens White	Luminus Homes Limited	Director Director Director Director Director	278,232	38,182	Appointed as Director Sept 2015 Appointed as Director Oct 2015 Appointed as Director Aug 2015 Appointed as Director May 2015 Appointed as Director Nov 2015
Baker	Huntingdon Shopmobility	Trustee		25,750	Grant
Criswell	Hunts Forum of Voluntary Organisations	Committee		38,000	Grant
Morris	King's Street Housing Society	Board Member		166,618	Crash Bed for Homelessness
West	Huntingdon Volunteer Centre	Trustee		37,000	Grant

With regard to these organisations, the Council has either procured goods or services or provided funding that has supported them in providing their core services.

# Note 31. Capital Expenditure and Capital Financing

The total amount of capital expenditure incurred in the year is shown in the table below, (including the value of assets acquired under finance leases), together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Council, the expenditure results in an increase in the Capital Financing Requirement (CFR); a measure of the capital expenditure incurred historically by the Council which has yet to be financed. The CFR is analysed in the second part of this note.

A net increase in the CFR reflects the Council's need to borrow to finance capital expenditure. The borrowing will be repaid from an annual revenue charge (MRP) which reflects the use of the assets over their useful lives.

2014/15		
£000 34,685	Opening Capital Financing Requirement	35,474
	Capital Investment	
2,315	Property, Plant and Equipment	823
0	Investment Properties	1,362
157	Intangible Assets	5
4,998	Revenue Expenditure Funded from Capital under Statute	3,003
47	Repayable Advances	2,302
7,517		7,495
	Sources of finance	
(1,087)	Capital receipts	(1,994)
(3,939)	Grants and other contributions	(1,119)
Ó	Capital Grants Unapplied Reserve – Community Infrastructure Levy	(1,490)
0	Direct Revenue Financing – Commercial Investment Strategy	(1,358)
0	Direct Revenue Financing – Other	(5)
(1,331)	Minimum revenue provision	(1,531)
(371)	S106 reserve	(81)
(6,728)		(7,578)
35,474	Closing Capital Finance Requirement	35,391
789	Increase/(Decrease) in Underlying Need to Borrow	(83)

# Note 32. Leases

# Council as Lessee

#### **Finance Leases**

The Council has acquired some industrial units under finance leases. The assets acquired under these leases are carried as investment property in the Balance Sheet at the following amounts:

2014/15		2015/16
£000		£000
1,773	Investment Properties	1,990

The Council is committed to making minimum payments under these leases, comprising settlement of the long-term liability for the interest in the property acquired by the Council and finance costs that will be payable by the Council in future years while the liability remains outstanding. The minimum lease payments are made up of the following amounts:

Annual Financial Report (including the Statement of Accounts as at 31 March 2016)

2014/15 £000		2015/16 £000
	Finance lease liabilities	
	(net present value of minimum lease payments)	
545	Non-current	545
2,988	Finance costs payable in future years	2,949
3,533	Minimum lease payments	3,494

The minimum lease payments will be payable over the following periods:

	Minimum lea	se payments	Finance lease payments		
	2014/15 £000	2015/16 £000	2014/15 £000	2015/16 £000	
Not later than 1 year	39	39	0	0	
Later than 1 year and not later than 5 years	156	156	0	0	
Later than 5 years	3,338	3,299	545	545	
	3,533	3,494	545	545	

The minimum lease payments do not include rents that are contingent on events taking place after the lease was entered into, such as adjustments following rent reviews. In 2015/16  $\pounds$ 0.081m contingent rents were payable by the Council (2014/15;  $\pounds$ 0.081m).

# **Operating Leases**

The Council has a number of operating leases for land which vary from 3 years to 50 years. The Operating lease payments made in the year are as follows:

The future minimum lease payments due under non-cancellable leases in future years are:

2014/15 £000		2015/16 £000
27	Not later than 1 year	38
59	Later than 1 year and not later than 5 years	51
15	Later than 5 years	2
101		91

The expenditure charged to the appropriate service in the Comprehensive Income and Expenditure Statement during the year in relation to these leases was:

2014/15 £000		2015/16 £000
61	Minimum lease payments	34

#### **Service Concessions**

The Council does not have any contracts that include service concessions

Annual Financial Report (including the Statement of Accounts as at 31 March 2016)

#### Council as Lessor

#### Finance leases

The Council has no finance leases as lessor.

#### **Operating Leases**

The Council leases out property under operating leases held mainly for the purpose of achieving a commercial return.

The future lease payments receivable under non-cancellable leases in future years are noted below:

2014/15 £000		2015/16 £000
1,628	Not later than 1 year	1,817
5,848	Later than 1 year and not later than 5 years	6,180
17,999	Later than 5 years	16,572
25,475		24,569

The lease payments receivable do not include rents that are contingent on events taking place after the Balance Sheet date, such as adjustments following rent reviews.

# Note 33. Impairment Losses

During 2015/16 the Council has recognised impairments to Property, Plant and Equipment of £0.710m (2014/15; £0.024m).

# Note 34. Termination Benefits and Exit Packages

#### **Compulsory Redundancy:**

In respect of:

• 2015/16, the Council approved the compulsory redundancy of 13 employees 8 leaving the council during 2015/16 and a further 5 leaving in 2016/17.

In 2015/16 Huntingdonshire District Council became the lead authority in a shared ICT service with Cambridge City Council and South Cambridgeshire District Council. As a result of this, the total of the compulsory exit packages above and in the table below includes:

- 2 employees that are bring fully recharged to their original employers Cambridge City Council and South Cambs District Council, at a cost of £137,275.
- 5 employees' costs that are being split between the three authorities, where £88,857 is the proportion recharged to Cambridge City and South Cambridgeshire.
- 2014/15, the Council approved the compulsory redundancy of 3 employees

# Other departures (Including Voluntary Redundancy):

In respect of:

• 2015/16, 0 voluntary redundancies were approved.

In addition a further employee left the council in 2015/16 with a Compromise agreement and pension enhancement package

 2014/15, 0 voluntary redundancies were approved. In addition a further employee left the council in 2014/15 but there was a pension enhancement

All costs in respect of Termination benefits and exit packages have been debited to the year in which the decision was made. The following table shows the banding of employee terminations and the total cost to the Council per band.

	Number of compulsory redundancies		compulsory departures		Total number of exit packages agreed		Total cost of packages	
	2014/15	2015/16	2014/15	2015/16	2014/15	2015/16	2014/15 £000	2015/16 £000
£0 to less than £20,000	1	6	0	0	1	6	11	73

	3	13	1	1	4	14	249	522

# Note 35. Defined Benefit Pension Scheme

# Participation in Pension Schemes

As part of the terms and conditions of employment of its officers, the Council makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments and this needs to be disclosed at the time that employees earn their future entitlement.

Employees of Huntingdonshire District Council may participate in the Cambridgeshire Pension Fund, part of the Local Government Pension Scheme (LGPS). The fund is administered as a defined benefit final salary scheme by Cambridgeshire County Council in accordance with LGPS Regulations 1997, as amended.

# Valuation of Pension Fund

The contribution rate is determined by the Fund's actuary based on triennial valuations. The last valuation took place as at 31 March 2013.

To avoid the impact of potential reductions in the workforce the actuary proposed that a fixed percentage of 17.8% be applied for 2014/15, 2015/16 and 2016/17. This should be used to provide for future service liabilities, together with a lump sum contribution to reduce the existing deficit related to past service.

Annual Financial Report (including the Statement of Accounts as at 31 March 2016)

The lump sums proposed were:

2014/15	£0.789m
2015/16	£1.135m
2016/17	£1.510m

As a consequence of the triennial valuation, the asset value in the intervening period is an estimate calculated by the actuary using a model. Any differences between the estimate and actual figures are adjusted at the next full valuation.

#### Transactions Relating to Post-Employment Benefits

The Council recognises the cost of retirement benefits in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. The Council and employees pay contributions into a fund, at a level calculated to balance the pension liabilities with investment assets. However, the charge the Council is required to make against council tax is based on the cash payable in the year, so the real cost of post-employment benefits is reversed out of the General Fund via the Movement in Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year:

2014/15 £000		2015/16 £000
	Comprehensive Income & Expenditure Statement	
	Cost of Services:	
3,648	Current Service Cost	4,275
203	Past Service Cost	58
6,965	Financing and Investment Income and Expenditure:	6,161
(4,323)	Net interest expense Expected Return on Scheme Assets	(3,595)
6,493	Total post-employment benefit charged to the deficit on	<u>(3,395)</u> 6,899
0,490	the provision of services	0,033
	Other post-employment benefit charged to the Comprehensive Income and Expenditure Statement:	
	Re-measurement of the net defined benefit liability comprising:	
7,609	Return on plan assets (Excluding the amount included in the net interest expense)	(4,709)
(25,383)	Actuarial gains and losses arising on changes in financial assumptions	17,891
1,819	Other experience	1,809
(15,955)		14,991
9,462	Total post-employment benefit charged to the Comprehensive Income and Expenditure Statement	21,890
	Movement in Reserves Statement	
(6,493)	Reversal of net charges made to the surplus/deficit on the provision of services for post-employment benefits in accordance with the Code	(6,900)
	Actual amount charged against the General Fund Balance for Pensions in the Year:	
3,686	Employer's contributions payable to the scheme	3,859
142	Retirement benefits payable to pensioners*	171
(2,665)	Total Movement in Reserves Statement	(2,870)

The cumulative amount of actuarial gains and losses recognised in the Comprehensive Income and Expenditure Statement to the 31 March 2016 is a loss of £53.95m, and to the 31 March 2015 is a loss of £69.59m.

## Assets and Liabilities in relation to Post-employment Benefits

Reconciliation of present value of the scheme liabilities in respect of Huntingdonshire District Council:

31 March 2015 £000		31 March 2016 £000	
162,360	Opening balance as at 1 April	192,333	
3,648	Current Service Cost	4,275	
6,965	Interest Cost	6,161	
951	Contributions by scheme participants	912	
25,383	Actuarial losses / (gains) from changes in financial assumptions	(17,891)	
(1,819)	Other	(1,809)	
203	Past service costs/ (gains)	58	
(5,216)	Benefits paid	(4,668)	
(142)	Estimated unfunded benefits paid *	(171)	
192,333	Closing balance at 31 March	179,200	
* The unfunded benefits are those relating to the early retirement of scheme members where the Council makes an additional contribution to the Pension Fund			

Reconciliation of fair value of the scheme assets in respect of Huntingdonshire District Council:

31 March 2015		31 March 2016
£000 100,896	Opening fair value of scheme assets balance as at 1 April	£000 112,249
4,323	Interest Income	3,594
7,609	The return on plan assets (Excluding amount included in net interest expense)	(4,709)
3,686	Contributions by the employer	3,859
951	Contributions by employees into the scheme	912
142	Contributions for unfunded (Discretionary benefits)benefits*	171
(5,216)	Benefits paid	(4,668)
`(142)	Unfunded (Discretionary benefits) benefits paid*	(171)
112,249	Closing Balance at 31 March	111,237

The expected return on scheme assets is determined by considering the expected returns available on the assets underlying the current investment policy. Expected yields on fixed interest investments are based on gross redemption yields as at the Balance Sheet date. Expected returns on equity investments reflect long-term real rates of return experienced in the respective markets.

The actual return on scheme assets in the year was £1.12m (2014/15; £11.932m).

Scheme History

2011/12 £000	2012/13 £000	2013/14 £000	2014/15 £000		2015/16 £000
(132,435)	(151,909)	(162,360)	(192,333)	Present value of liabilities	(179,200)
81,094	93,475	100,896	112,249	Fair value of assets	111,237
(51,341)	(58,434)	(61,464)	(80,084)	Deficit in the scheme	(67,963)

The liabilities show the underlying commitments that the Council has in the long run to pay post-employment benefits. The total liability of £179.20m has a substantial impact on the net worth of the Council as recorded in the Balance Sheet, resulting in a negative overall balance of £67.96m. However, the statutory arrangements for funding the deficit mean that the financial position of the Council remains healthy:

- The deficit on the local government scheme will be made good by increased contributions over the remaining working life of employees (i.e. before payments fall due), as assessed by the scheme and actuary.
- Finance is only required to be raised to cover discretionary benefits when the pensions are actually paid.

The Council expects to contribute £3.86m into Cambridgeshire County Council's Local Government Pension Fund in the year to 31 March 2016. With regard to discretionary benefits, there were no such awards in 2015/16 (2014/15; Nil).

#### Basis for estimating Liabilities and Assets

Liabilities, for the purposes of IAS19, have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels, longevity etc. The liabilities have been assessed by Hymans Robertson LLP, the independent firm of actuaries to the County Council Pension Fund being based on the latest full valuation of the scheme as at 31 March 2013. The results of this valuation were projected forward using approximate methods.

The main assumptions used by the actuary are as shown below.

2014/15	County Fund – Main Assumptions	2015/16
4.3%	Rate of increase in salaries	4.2%
2.4%	Rate of increase in pensions	2.2%
3.2%	Rate of discounting scheme liabilities	3.5%
	Mortality assumptions:	
	Longevity at 65 for current pensioners	
22.5 years	Men	22.5 years
24.5 years	Women	24.5 years
	Longevity at 65 for future pensioners	
24.4 years	Men	24.4 years
26.9 years	Women	26.9 years

#### Local Government Pension Scheme Assets Comprised:

Pension fund assets consist of the following categories, by value of the total assets held:

31 March 2015 £000		31 March 2016 £000
3,364	Cash and cash equivalents	1,583
	Equity instruments by industry:	
11,118	Consumer	2,556
6,882	Manufacturing	2,139
3,162	Energy and utilities	1,866
9,180	Financial institutions	4,052
5,465	Health and care	1,744
5,075	Information technology	879
0	Other	0
40,882	Sub-total equity	13,237
	Private equity:	
7,958	All not in active markets	10,281
7,958	Sub-total private equity	10,281
	Other investment funds:	
17,115	Bonds	16,692
34,579	Equity	59,948
8,351	Other	9,496
60,045	Sub-total other investment funds	86,136
112,249	Total Assets	111,237

#### History of Experience Gains and Losses

The actuarial gains identified as movements on the Pensions Reserve in 2015/16 can be analysed into the following categories, measured as a percentage of assets or liabilities at 31 March 2016.

2011/12	2012/13	2012/13	2013/14	2014/15		2015/16
(6.39%)	8.16%	8.85%	2.92%	2.62%	Differences between expected and actual return on assets	6.88%
(1.10%)	0.06%	0.06%	0.51%	0.95%	Experience gains/ losses on liabilities	1.01%

#### Sensitivity analysis:

Increase in assumption 31 March 2015 £000	Impact on the defined benefit obligation in the scheme	Increase in assumption 31 March 2016 £000
5,770	Longevity (increase or decrease in 1 year)	5,376
6,719	Rate of increase in salaries (increase or decrease by 0.5%)	5,831
12,732	Rate of increase in pensions (increase or decrease by 0.5%)	12,901
(19,905)	Rate for discounting scheme liabilities (increase or decrease	(19,601)
	by 0.5%)	

## Further information

Further information may be found in the Cambridgeshire County Pension Fund Annual Report, available from the Director of Resources, Cambridgeshire County Council, Shire Hall, Castle Hill, Cambridge, CB3 0AP.

# Note 36. Provisions, Contingent Assets and Liabilities

# Provision

Balance at 31 March 2016	79	2,157	0	40	30	2,306

## Short Term Provision

Where an obligating event is expected to occur within the next 12 months.

# 1. Enterprise Zone Retained NDR

The Council retains the Non Domestic Rates (NDR) income arising from increases in the rateable value of premises within the Alconbury Weald Enterprise Zone; however, there is a requirement to apply this retention to the Enterprise Zone. As no formal request to draw down this retention had been made by the Local Enterprise Partnership as at 31 March 2015, a provision for this liability has been recognised.

# 2. NDR Appeals Provision

As a consequence of the Government initiative in the localisation of Non-Domestic Rates (NDR), the Government transferred the risk of appeals against Rateable Values to local authorities. Following a review a provision for appeals outstanding was estimated to be  $\pounds 8.331m$ ; of which  $\pounds 3.333m$  would have to be met by the Council, and  $\pounds 4.998m$  by other Collection Fund participants.

#### 3. Employee Litigation

Amount set aside to meet the cost of employee litigation.

#### 4. Local Land Charges

A group of Property Search Companies have sought to claim refunds on Land Charges from Local Authorities. The Council has been informed that the settlement of this claim will be within the next 12 months, although this claim has neither been verified nor accepted by the Council. The provision included is a pessimistic estimate based on the latest information available and includes legal costs and interest.

# 5. Tree Claim

This relates to the cost of underpinning and associated fees and expenses incurred by Co-Operative Insurance in relation to works carried out at Oak Lodge, Warboys Road, Old Hurst, PE28 3AA, that they claim are as a result of damage caused by a tree protected by a Tree Preservation Order.

# **Contingent Liabilities**

The councils Contingent Liabilities cover various on-going litigations and these are detailed below. The total expected value of these liabilities is £6.213m (2014/15; £4.746m)

2014/15 Estimated value of contingent liability £000	Details of Contingent Liability	2015/16 Estimated value of contingent liability £000
	Environmental Related:	
3,750	Contaminated Land The Environmental Protection Act 1990 Part IIA makes the Council Liable for the costs of remediation of contaminated land where no other responsible person can be identified. The Council is in discussion with Cambridgeshire County Council over the planning position of a site owned by a company which is currently treating the leachate from a possible orphan site. If the planning application made to the County Council is approved, this will reduce the probability of abandonment and the likelihood of the Council becoming liable will reduce considerably. However, at this time there is a possibility that the Council could be liable if the site is	3,600
	abandoned. Current estimates are that the cost of leachate treatment would cost £150,000 per	
3,750	annum for 24 Years (Originally 30 Years). Total for Environmental Related	3,600
3,750	Housing Related:	3,000
465	Disabled Facilities Grants	392
	The Council has agreed to pay disabled facilities grants; however, as yet the schemes have not yet started. The expense will only be incurred if the householders carry out the home alterations.	
465	Total for Housing Related	392

Huntingdonshire District	t Council An (including the Statement of Accounts	nual Financial Report
1	NHS Hospital Trust	
0	At this time a claim has been made against the Council by NHS Hospital Trusts in respect of mandatory NDR relief. However, via the Local Government Association, the Council along with many other Local Authorities is challenging this claim.	1,750
0	Total for Customer Services Related	1,750
	Corporate Related	
511	Municipal Mutual Insurance Liquidation	451
	Some years ago, the Council was insured by Municipal Mutual Insurance (MMI); unfortunately whilst the Council was insured by MMI they went into liquidation. Following the collapse of MMI, a Scheme of Arrangement was made that allowed MMI to 'run-off' the business and deal with outstanding claims. Due to increasing numbers of liability claims that MMI continued to receive, MMI pursed the matter of their continuing liability through the Courts. The Supreme Court gave judgement in March 2012. This clarified MMI's position in respect of future claims and led ultimately to increasing liabilities for MMI. The Council's Insurance Brokers informed the Council that following a February 2013 creditors meeting, the Scheme of Arrangement was likely to be enforced. Since then, a number of levies have been charged against the Council. The Contingent Liability shown for 2015/16 is the balance of the total claims paid by MMI on behalf of the Council.	
20	Assets of Community Value	20
	In 2015/16, the Council has listed 18 sites owned by private individuals or companies as Assets of Community Value, as required by the Localism Act 2011. The Assets of Community Value scheme includes provisions for owners to claim compensation for loss and expense incurred through the asset being listed or previously listed. All claims must be considered and decisions may be subject to a review and an independent appeal. The Council is liable for all compensation payments awarded up to a maximum of £20,000 in each financial year.	
531	Total for Corporate Related	471
4,746	Total Contingent Liabilities	6,213

The above litigations are prudent estimates of the potential cost to the Council. It is not possible, due to considerations of legal privilege to either provide further information or to give an assessment of the likelihood of success of any of the litigations.

# Note 37. Nature and Extent of Risks Arising from Financial Instruments

The Council's activities expose it to a variety of financial risks:

- Credit risk the possibility that other parties might fail to pay amounts due to the Council.
- Liquidity risk the possibility that the Council might not have funds available to meet its commitments to make payments.
- Market risk the possibility that financial loss might arise as a result of changes in measures such as interest rates.

The Council's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the resources available to fund services. Risk management is carried out by the treasury management team with due regard to the Annual Treasury Management Strategy approved by the Council.

# Credit risk

Credit risk arises from investments with banks and other financial institutions, as well as credit exposures to the Council's customers.

In relation to investments the Council has adopted CIPFA's *Code of Practice on Treasury Management in the Public Services,* has an agreed Treasury Management Strategy which addresses risk, and has set treasury management indicators to control key financial instrument risks in accordance with CIPFA's Prudential Code.

The Council's maximum exposure to credit risk in relation to its investments in banks and building societies of £33.096m (2014/15; £17.908m) cannot be assessed generally as the risk of any institution failing to make interest payments or repay the principal sum will be specific to each individual institution. The risk of not being able to recover the principal sums applies to all of the Council's deposits but there was no evidence as at 31 March 2016 that this was likely to occur and there are no investments that as at 31 March 2016 were with institutions that had failed.

In relation to the sums owed by the Council's customers and contractual debtors, the Council makes prudent financial provision for bad debts based on an assessment of the risks for each type of debt and the age of those debts whilst maintaining a robust approach to the collection of debts. The older the debt, the greater is the provision for bad debts. The bad debt provision has taken into account the current economic climate and the increased likelihood of debtors not being able to settle their debts.

The following analysis summarises the Council's potential maximum exposure to credit risk on receivables, based on historical experience of default and uncollectability. It relates to the sundry debtors element of the total debtors, including debts of individuals, entities and housing benefit claimants.

Huntingdonshire District Council

Annual Financial Report (including the Statement of Accounts as at 31 March 2016)

	Amount at 31 March 2016 £000	Historical experience of default %	Historical experience of default adjusted for market conditions %	Impairment allowance 31 March 2016 £000	Impairment allowance 31 March 2015 £000
Sundry debtors	2,945	4.24%	4.24%	1,534	1,471

The Council does not generally allow credit for customers. The past due, but not impaired amount can be analysed by age as follows:

31/03/15 £000		31/03/16 £000
260	Less than three months	264
220	Three to six months	226
1,197	Six months to one year	864
1,469	More than one year	1,591
3,146	_	2,945

## Liquidity risk

The Council maintains a cash flow projection that assists in ensuring that cash is available as needed. If unexpected movement happens the Council has ready access to borrowings from the money markets, and if necessary from the Public Works Loans Board (PWLB), although the Council does not generally uses the PWLB for short-term cash-flow deficits. There is no significant risk that it will be unable to raise finance to meet its commitments under financial instruments.

The maturity analysis of financial liabilities of more than one year are shown below as at 31 March 2016.

Financial Year	£000s
2023/24	1,156
2046/47	1,850
2047/48	400
2057/58	<u>10,000</u>
	13,406

31/03/15 £000 Restated		31/03/16 £000
282	Less than one year	347
11,202	More than one year	13,233
11,484		13,580

All trade and other payables are due to be paid in less than one year.

#### <u>Market risk – interest rate risk</u>

The Council is exposed to risk in terms of its exposure to interest rate movements on its borrowings and investments. Movements in interest rates have a complex impact on the Council. For instance, a rise in interest rates would have the following effects:

- Borrowing at variable rates the interest expense charged to the Surplus or Deficit on the Provision of Services will rise.
- Borrowings at fixed rates the fair value of liabilities borrowings will fall.
- Investment at variable rates the interest income credited to the Surplus or deficit on the Provision of Services will rise.
- Investments at fixed rates the fair value of the assets will fall.

However the impact on the Surplus or Deficit on the Provision of Services is reduced because the Council does not generally borrow or invest at variable rates. Borrowings are not carried at fair value, so nominal gains and losses on fixed rate borrowings would not impact on the Surplus or Deficit on the Provision of Services or Other Comprehensive Income and Expenditure.

The Council manages interest rate risk by not having any borrowings in variable rate loans. At times of falling interest rates and where economic circumstances make it favourable, consideration would be given to repaying fixed rate loans early to limit exposure to losses.

The treasury management team assesses the interest rate exposure that feeds into the setting of the annual budget and it is used to update the budget at least quarterly during the year.

	£000
Increase in interest payable on borrowings of less than 1 year	0
Increase in interest receivable on investments of less than 1 year	154CR
Impact on the surplus on the Provision of Services	154CR
Increase in the fair value of fixed rate investments	0
Impact on Other Comprehensive Income and Expenditure	0
Decrease in fair value of fixed rate borrowings (No impact on the Comprehensive Income and Expenditure Statement)	2,768

If in 2015/16 interest rates on all of its investments and borrowings had been 1% higher with all other variables held constant, the financial effect would be:

The impact of a 1% fall in interest rates would be as above but with the movements being reversed.

#### Price risk

The Council does not generally invest in equity shares but has invested £2.5 million in the Local Authorities Property Fund in 2015/16. This is a professionally managed diversified property portfolio.

This investment is classified as 'available for sale', meaning that all movements in price will impact on gains and losses recognised in Other Comprehensive Income and Expenditure.

A loss of £182,000 in respect of the Local Authorities Property Fund has been recognised in Other Comprehensive Income and Expenditure in 2015/16. This reflects general movements in the value of the shares, and the spread between the 'offer' price at which the shares were purchased and the 'bid' price that any purchaser would pay for them.

A general shift of 5% in the general price of shares (positive or negative) would have resulted in a gain or loss of £125,000 being recognised in the Other Comprehensive Income and Expenditure for 2015-16.

#### Foreign Exchange Risk

The Council does not hold foreign currencies and consequently has no exposure to loss arising from movements in exchange rates.

# Notes to the Collection Fund

# 1. Purpose of Fund

The Collection Fund is an agent's statement that reflects the statutory obligation for the Council as a billing authority to maintain a separate Collection Fund. The statement shows the transactions of the billing authority in relation to the collection from taxpayers and distribution to local authorities and the Government of council tax and non-domestic rates.

Until it is distributed, the tax collected is held in a statutory Collection Fund which is separate from the General Fund of the Council. The accounts are however, consolidated into the Council's accounts. They have been prepared on an accruals basis.

Parish and Town Council precepts are transferred to the General Fund before being paid to the Parish or Town Council. Interest is not payable/chargeable to the Collection Fund on cash flow variations between it and the General Fund.

There is no requirement for a separate Collection Fund Balance Sheet. The assets and liabilities of the Collection Fund at the end of the year are apportioned between Huntingdonshire District Council and the major preceptors in proportion to their demand on the fund for the year. The major preceptors' share of the assets and liabilities of the Collection Fund are shown as a debtor in Huntingdonshire District Council's accounts. Huntingdonshire District Council's share of the assets and liabilities are held in the Collection Fund Adjustment Account reserve.

Tax base at 3	1 March 2016			
Tax band	Properties	Exemptions & discounts	Band D multiplier	Band D equivalent

# 2. Council Tax

Council tax charge per band D property for 2015/16 £1,609.29. Council tax charge per band D property for 2014/15 £1,584.76.

# 3. Non Domestic Rates (NDR)

The uniform business rate set by the Government for 2015/16 was 49.3p (2014/15 48.2p).

Total rateable value at 31 March 2016 £142.01m. Total rateable value at 31 March 2015 £142.03m.

#### 4. Non Domestic Rates Appeals

The provision is based upon the latest list of outstanding rating list proposals provided by the Valuation Office Agency. It is an estimate based on changes in comparable hereditaments, market trends and other valuation issues, including the potential for certain proposals to be withdrawn. The estimate includes appeals and proposals in respect of live and historic Rating List entries. It does not include any allowance or adjustment for the effects of transition or for changes in liability. The estimated provision is made up of the estimated outcome of appeals calculated by a weighted average of the historic outcomes. It should be noted that the impact on the Council of appeals, as well as other NDR, is limited by Safety Net calculation (the calculation of which is limited by regulation).

A 10% variation in the estimated provision would be  $\pounds 0.539m$  for the Collection Fund of which  $\pounds 0.216m$  would be the share of the attributable to the General Fund.

# **GLOSSARY OF TERMS AND ABBREVIATIONS**

## **GLOSSARY OF TERMS**

#### Accrual

The recognition of income and expenditure as it is earned or incurred, rather than as cash is received or paid.

#### Actuarial Assumptions

These are predictions made for factors that will affect the financial condition of the pension scheme.

#### Amortisation

The gradual write off of initial costs of assets.

#### Asset

An item having value to the Council in monetary terms.

#### Balance

Unallocated reserves held to resource unpredictable expenditure demands.

#### **Business Improvement District**

A levy on local business to provide funding to develop the immediate area covered by the levy. The levy is agreed by majority vote.

#### **Capital Charges**

Charges made to service department revenue accounts, comprising depreciation (where appropriate) based on the value of the asset employed.

#### **Capital Expenditure**

Expenditure on the acquisition of non-current assets which will be used in providing services beyond the current accounting period, or expenditure on non-current assets.

#### **Capital Financing Charges**

The annual cost of depreciation, leasing charges and other costs of funding capital expenditure.

#### Capital Adjustment Account

The account which reflects the extent to which the District Council's resources have been applied to finance capital expenditure and to meet future debt redemption or other credit liabilities.

#### **Capital Receipts**

Income received from selling non-current assets.

#### **Carrying amount**

The value of an asset or liability in the Balance Sheet.

#### CIPFA

This is the Chartered Institute of Public Finance and Accountancy which is an institute that represents accounting in the Public Sector.

#### **Collection Fund**

A separate fund that records the income and expenditure relating to council tax and nondomestic rates.

#### Community Infrastructure Levy

An amount payable by developers (commercial and domestic) in respect of new buildings created within the District. The Levy must be used to provide infrastructure; decisions on which are taken by District and Parish Councils.

#### **Contingent Liabilities**

These are amounts that the Council may be, but is not definitely, liable for.

#### **Council Tax**

A tax paid by residents of the District that is based on the value of the property lived in and is paid to the Council and spent on local services.

#### Creditors

These are people or organisations which the Council owes money to for goods or services which have not been paid for by the end of the financial year.

#### **Current Assets**

These are assets that are held for a short period of time, for example cash in the bank, inventories and debtors.

#### Debtors

Sums of money owed to the District Council but not received by the end of the financial year.

#### Depreciation

The amount an asset has dropped in value is the amount it has been judged to have depreciated. Accountants use depreciation to demonstrate how much of the property, plant and equipment value has been used and therefore lowered during a financial year, for example because of wear and tear.

#### **Earmarked Reserves**

Money set aside for a specific purpose.

#### **Exceptional Item**

A material item in the Comprehensive Income and Expenditure Statement that falls within the ordinary activities of the Council but which needs to be disclosed separately by virtue of their size to give a fair presentation of the accounts.

#### Fair value

The amount for which an asset could be exchanged or a liability settled, between knowledgeable, willing parties in arms length transaction.

#### **Finance Lease**

A lease is a financial agreement to pay for an asset, for example a vehicle, in regular instalments. A finance lease transfers substantially all of the risks and rewards of ownership of an item of property, plant and equipment to a lessee.

#### Impairment

A reduction in the value of property, plant and equipment to below its carrying amount on the Balance Sheet.

#### Impairment of debts

This recognises that the real value of debt is less than the book value.

#### Intangible Assets

A non-physical item which provides future economic benefits. This Council's intangible assets comprise computer software licences.

## Liabilities

Amounts due to individuals or organisations which will have to be paid at some time in the future. Current liabilities are usually payable within one year of the Balance Sheet date.

#### Liquid Resources

Current asset investments held as readily disposable stores of value, either readily convertible into cash, or traded in an active market.

#### Local Enterprise Partnership

A Government initiative to boost economic growth within defined and agreed geographical areas. Funding to enable this growth is derived from the Non Domestic Rates collected for that area and channelled into the "partnership" to fund schemes.

#### Minimum revenue provision

The minimum amount that must be charged to the revenue account each year to provide for the repayment of monies borrowed by the Council.

#### **Non Domestic Rates**

Rates which are levied on business properties. From 1<sup>st</sup> April 2013, as a consequence of The Local government Finance Act 2012, a local Non Domestic Rating regime was introduced that included the business rates retention scheme. See also **Tariff** and **Safety Net**.

#### **Operating Leases**

A lease is a financial agreement to pay for an asset, for example a vehicle, in regular instalments. An operating lease is where the ownership of the non-current asset remains with the lessor.

#### Precept

A payment to the Council's General fund, or another local council, from the Council's Collection Fund.

#### **Prior Year Adjustments**

These are material adjustments applicable to previous years arising from changes in accounting policies or from the correction of fundamental errors.

#### Property, Plant and Equipment

Non-current assets that give benefit to the District Council and the services it provides for more than one year.

#### Provisions

Monies set aside for liabilities or losses which are likely to be incurred but where the exact amounts or dates on which they will arrive are uncertain.

#### Reclassification

Where comparative (prior year) figures are reclassified into new categories of income or expenditure, and the change has not been the result of a material error or accounting policy but the amount is "material" then this is a reclassification.

#### **Responsible Financial Officer**

The designated post within the Council, as determined by the Accounts and Audit Regulations 2011, which holds the statutory S.151 responsibility (Local Government Act 1972). This responsibility is in respect of ensuring the proper administration of the Council's financial affairs. This post was formerly known as Chief Financial Officer.

## Restated

Where there has been a material error in the accounts or a new accounting policy has been applied, then the comparative (prior year) figures have to be "restated" as if the correction or policy had been in place as at the end of the previous financial year.

#### **Revenue Expenditure Funded from Capital under Statute**

Spending on items normally classed as revenue but which are defined by statute as capital e.g. improvement grants.

**Revaluation Reserve** The account that reflects the amount by which the value of the Council's assets has been revised following revaluation or disposal.

#### **Revenue Expenditure**

Spending on day-to-day items, including salaries and wages, premises costs and supplies and services.

## **Revenue Support Grant**

A grant from Central Government towards the cost of providing services.

#### Safety Net

The scheme for localising Non Domestic Rates (NDR) includes a safety net provision. Where the actual NDR after Tariff is less than 92.5% of the funding baseline, Central Government makes a safety net payment to the Council equal to the difference between the actual NDR and the funding baseline.

#### Section 106

Under planning regulations developers can be requested to make contributions to on and offsite facilities required as a result of their development.

#### Tariff

The scheme for localising Non Domestic Rates (NDR) includes baselines for both the amount of NDR the Council receives and the amount of Council funding from NDR. The Council pays Central Government a Tariff equal to the difference between the two baselines.

#### **True and Fair View Override**

As required by the Accounts and Audit Regulations 2011, paragraph 8.2, the Responsible Financial Officer is required to certify that the statement of accounts presents a true and fair view of the financial position of the Council. However, as a consequence of IFRS, this has introduced the principle of the "true and fair view override". This means, where the Responsible Financial Officer considers that to give a true and fair view would actually require the Council to provide misleading information i.e. to provide an actual outturn figure would actually show to the reader an unexpected financial position, the Responsible Financial Officer is permitted to provide alternative figures providing such divergence from the "true and fair view" is appropriately acknowledged in the notes to the accounts.

#### Zero Based Budgeting

A budgeting methodology where the starting point is zero and the budget is based on service need and anticipated demand for that year.
